- How To Buy or Sell on The Plastics Exchange
- Using Our Website

Who We Are

The Plastics Exchange is an online real-time bid/ask spot market for buying and selling standardized conti prime commodity plastics resins in truckloads and railcars. We offer both a generic exchange and a brand market.

C.H. Robinson, our transportation partner manages the freight and logistics from end-to-end. B2BExchangeCredit.com, our credit partner supplies a required line-of-credit to all buy-side members and as the clearinghouse for payment for all The Plastics Exchange members. Together, we guarantee the qual product, delivery, and payment.

In addition, ThePlasticsExchange.com website offers a number of research tools and resources that help u stay current with industry news and pricing trends.

The Exchange Advantage

Quality - The Exchange offers trading in 28 standard contracts of prime commodity resins – 18 for differe grades of polyethylene, 7 for polypropylene and 3 for polystyrene. Certain ranges of properties including flow, density, izod and additives define each contract; which are traded in packaged truckloads (42,000 po and bulk railcars (190,000 pounds). Only specific brands approved by The Exchange may be offered and delivered against the specifications of these contracts. Even if the product is offered generically, it is still

Anonymity - All bids and offers are anonymous and kept confidential, even after the trade. This unique fe possible with The Plastics Exchange because of the integrated credit and transportation services.

Neutrality - The Plastics Exchange neither holds inventory nor "makes a market" on our contracts. We are

however, the buyer to every seller and the seller to every buyer. This is necessary to remove counter party for our members, and manage logistics during transportation.

No Hidden Costs - Sellers offer the product FOB their shipping point. Transportation costs are dynamicall generated based upon the buyer's selected delivery point and included in the asking price quoted to buyer Seller's pay The Exchange a transaction fee; there are no trading fees for buyers. Presently there are no membership or application fees for anyone.

Delivery - The Seller's warrants, by contract, that they will only enter an order that they are ready and abl ship. They further warrant that the product they ship will conform to the specifications of the contract. Tri orders are to be shipped within 3 business days of the trade. Railcar orders are to be shipped within 10 bus days. If the seller is unable to fulfill these contracted obligations, The Plastics Exchange will source and d the product to the buyer.

Guaranteed Payment to Seller - B2BExchangeCredit pays the seller directly. The seller has the option to r payment upon delivery for a discount, or receive payment net 45 days, or any day in-between.

Buyer's Credit - All buyers secure a line of credit from B2BexchangeCredit. The buyer has the option to p upon delivery with a discount, net 30, or use our financing for up to 90 days.

Membership Is Easy

Producers, distributors, brokers, compounders, and processors will all find benefit as members of The Pla Exchange. Membership is free for both buyers and sellers, and becoming a member is easy.

To apply for membership:

Buy-side membership to The Plastics Exchange requires a line of credit. If you do not wish to supply a let credit from your bank you can apply for credit with B2BExchangeCredit.com, our credit partner. There is minimum information we must ask for that is covered by our privacy policy in order to approve your membership and line of credit. That minimum information includes company name, tax ID number, and company bank reference information. Any additional information you supply will speed the application pr PLEASE NOTE THIS BEGINS THE APPLICATION PROCESS. IN ALL CASES WE WILL REQUIRI SIGNED FORM RETURNED TO US BEFORE TRADING CAN BEGIN.

Complete and submit our online membership application at www.ThePlasticsExchange.com;
Call Member Services at (800) 851-7303 and we will help you and/or send you an application;
Download The Application from our website, complete and submit it via mail or fax to:

How To Buy or Sell on The Plastics Exchange

It is important to understand certain key terms as defined and used on The Exchange: contract, bid, ask or generic, branded.

A contract is a unit of trading, based upon product quality and quantity as defined by The Exchange.

A bid is the price that a buyer is willing to pay for a specific contract priced FOB delivered.

An ask or offer is the price that a seller chooses to sell a specific contract priced FOB supply point.

A Brand is a manufacture's trade name for a specific formula of plastic. All brands offered on The Excha have been independently verified to conform to the specifications of each contract.

Generic is the seller's offer of a contract shown to the market without the brand name attached; it is still p

Plastics contracts - The plastics contracts are traded in two standard sizes: 42,000 lbs packaged truckloads 190,000 lbs bulk railcars. Our transportation partner handles freight and logistics end-to-end, thereby maintaining buyer and seller anonymity.

Minimum quantities traded

- Each truckload's content shall be approximately 42,000 lbs. net.
- All truckloads shall be packaged in gaylords that are standard to the industry.
- The content's weight shall be clearly marked on each gaylord.
- Within each truckload, all gaylord's weights shall be consistent.
- The gross weight of each truckload shall be /included on the bill of lading.

- Each railcar's content shall be approximately 190,000 lbs. net.
- All railcar deliveries shall be in railcars that b identifying markings of the manufacture.
- The gross weight of each railcar shall be /incl on the bill of lading.

Using Our Website

The trading floor - The trading floor displays the best bid/ask market for each contract in both truckloads railcars. This is the generic market. The brand is not shown in the generic market, only the quantity and p (There is a branded market that will be further explained later).
When a buyer selects from their unique pull-down menu of delivery points, our transportation module tak newly selected delivery point and attaches it to all sell offers. The system identifies all possible transporta routes, finds the associated freight rate for each offer, adds it to the sellers' offers and performs a sort; onl lowest offer is shown to the buyer.

Based upon the best offer, and its location, the system shows the buyer what the seller (the lowest offer) s the best bid. If the buyer wants to be the best bid to the market, he must bid higher than the bid currently s on The Exchange. The buyer can certainly place a bid below the market, if the market goes down, it may filled.

Clicking on any of the contracts pops up an "action box". This action box gives the user the ability to acc Order Entry, Branded Market, Working Orders, Filled Orders and Contract Specs screens for the selected contract. As selected in the action box, the buyer's order entry screen is displayed in the picture.

For example: For the contract LDPE – Film Grade – Clarity – No Adds as shown, priced delivered FOB Ohio, there is 1 truckload bid at $0.420 per pound and 1 truckload offered at $0.445 per pound; 1 railcar b $0.370 per pound and 1 railcar offered at $0.390 per pound.

A buyer can place a bid lower, equal to, or higher than the prevailing bid with any number of contracts th choose. If they wish to pay the offer price, they can buy 1 truckload. If they bid $0.445 for 2 truckloads, t will purchase the 1 offered, and they will become the new high bid of $0.445 for 1 truckload.

If the buyer were to select another city, The Exchange will adjust the prices to reflect the new delivery po The quantities on the trading floor associated with the best bids and offers will likely change because the offer may be coming from a different seller (probably closer in location) and they have likely offered a di number of contracts.

Buyers can post their bids with only a few mouse clicks. When the bid order entry is selected from the act box, the buy order entry screen is already loaded with the contract that has been selected, the delivery poi

was last used on the trading floor and the lowest offer price in the system (the same information found on trading floor). Any of these variables can be changed from the pull down menus.

Buy Order Entry - In the bid order entry screen shown, the buyer will place a bid ($0.584) higher than the current highest bid ($0.577) for 3 truckloads this will then become the best bid.

When the order is submitted, the order confirmation message comes up, displaying the order being placed

Working Orders - The working order screen displayed shows the working orders for the contract (when se from the action box). If the user selects 'show all' button (above delivery point on the working order scree of their working orders are shown chronologically.

If the 'working order' button is selected from the top navigation bar, all the users working orders will be displayed, and they can sort by any column heading, search for a particular order, or list all orders for LDI contracts.

Filled Order - When an order has been filled, the filled order screen will show the estimated value of the purchase as well as the status of the order. In this case, the product has yet to be picked up from the seller (Inventory). The status can show: Inventory, Dispatched, Loaded and Delivered. When an order is filled, parties will receive an email notification.
At the time of the transaction, our transportation partner is notified of the transaction, and arranges for the delivery of the product.

Upon shipment, the seller actually transfers the title of the product to The Plastics Exchange and The Plas Exchange then transfers it to the buyer upon delivery. We neither hold inventory nor "make a market" on contracts. The Plastics Exchange is, however, the buyer to every seller and the seller to every buyer. This necessary to remove counter party risk for our members, and manage logistics during transportation.

When the product is picked up from the supplier, the seller enters the exact weight on the bill of lading. Tl information is used to calculate the exact value of the transaction to enable exact payments for the transac

When the seller enters an order, they specify which brand they will deliver. They have the choice, howeve send the offer to the Generic Exchange only, or to also show the offer to the Branded Market.

Branded Market - The buyer cannot bid lower than the offered price, only purchase the brand at the price offered.

System Messages - A history of all activity is recorded as a System Message for easy reference.

Exchange Filters -

We are also working to develop seamless integration into ERP systems.

Each Participant is fully responsibility for the mon its Account.
- All orders entered on The Exchange shall be good-til-canceled which means that they will be open unti either canceled or matched.

Trade Matching

Participants' orders are electronically matched by The Exchange based on price and time of entry, conside

charges. Upon the matching of a buy and sell order, the transaction becomes a legally binding contract an
Exchange generates an electronic confirmation which is automatically sent to both the buy and sell Partici
in the absence of such additional delivery instructions, will initiate delivery following Participant's default
instructions. If necessary, Participants are required to forward any additional delivery instructions to The
immediately following the transaction either via phone at 800-967-9619, e-mail to
Logistics@ThePlasticsExchange.com or system message.
Once a transaction becomes a legally binding contract, both parties to the contract must perform (Seller m
Buyer must take delivery). Netting of transactions is not permitted. TPE reserves the right to mitigate disp
in a fair and equitable manner.

Transportation
Each Contract offered FOB shipping point includes the provision and cost of delivery. Delivery shall be p
TPE through its Transportation Partner(s). Because transportation is an integral part of each contract, Part
provide shipping instructions to TPE upon application as a Participant. Neither the Transportation Partner
shall be liable for any consequential damages that occur in transit.

Right of Rejection
A Participant may only reject delivery of a Contract where the Product delivered does not meet the standa
contract specifications set forth in Appendix II of the Agreement as amended from time to time. The Parti
notify TPE immediately of such rejection. TPE, upon such notification, may dispatch an independent part
the Product for compliance with the standardized contract specifications.
If the Product meets such specifications, Buyer must bear the cost of such independent analysis and must
delivery.
If the Product does not meet such specifications, Seller must bear the cost of such independent analysis an
of return shipping. Further, the Seller must accept the returned Product and ship to Buyer a Product that m
standardized contract specifications.
If Seller is unable to provide such Product, TPE will purchase a substitute Product at the current market p
Seller shall be responsible for all related costs, including any difference in price.

Failure to Deliver
If a Seller fails to deliver any order pursuant to the terms of the Contract, TPE may purchase the Product a
prevailing market price for the benefit of the Buyer and the Seller shall be responsible for all costs related
failure, including any price difference. TPE may offset these fees and other payables against payment due

Dispute Resolution
Each Participant must agree that it will use its best efforts to resolve any dispute that arises between the P
and TPE and/or B2BExchangeCredit, LLC by participating in a meeting with the management of TPE. If
cannot come to an agreement through such meeting, the Participant must agree to submit to binding arbitr
will be conducted by FedNet, Inc[1]. Each Participant must further agree to submit to binding arbitration
dispute is brought to arbitration that involves the contraparty to any corresponding trade of the Participant
B2BExchangeCredit, LLC.

Business Conduct
Participants must adhere to the following restrictions and requirements. For violating any of the following
in its sole discretion, impose such sanctions against Participant as TPE may deem reasonable and appropri
including but not limited to fine, suspension, termination or any such other sanction.
- Neither a Participant nor any employee of a Participant shall engage in any fraudulent act or to deceive,

engage in any scheme to defraud, in connection with or related to any trade on or other activity related to Exchange. Orders of Contracts entered in The Exchange for the purpose of upsetting the equilibrium of th and bringing about a condition of demoralization in which prices do not or will not reflect fair market valu forbidden and any member of TPE and any employee of a member of TPE who makes or assists in enterir orders with knowledge of the purpose thereof, or who, with such knowledge shall be a party to assist in ca any plan or scheme for the entering of such orders shall be deemed guilty of an act inconsistent with just a equitable principles of trade.

- Manipulation of the market is prohibited.
- It shall be an offense to violate any TPE Policy regulating the conduct or business of Participant, or any made with TPE, or to engage in fraud, dishonorable or dishonest conduct, or in conduct or proceedings in with just and equitable principles of trade, or intentionally default on the delivery of any Contract.
- It shall be an offense against TPE to make a misstatement of material fact to TPE.
- Neither a Participant nor any employee of a Participant may use its right of access to The Exchange in a which would tend to bring disrepute upon the Participant or The Exchange.

Disclaimer/Limitation of Liability

TPE shall not be responsible for the accuracy, completeness, or use of any information received by TPE fi Participant. TPE shall not be responsible for any damages caused by communications line failure, unauthc access, theft, systems failure, and other occurrences beyond TPE's control. [1] FedNet, Inc., founded in 1998, is a private alternative dispute resolution organization comprised exclusively of former federal judges. Its offices are located at The Commons, P.O. Box 470338, Building Two, 8223 Brecksville Road, Cleveland, Ohio 44141-0338.

Rules of the Exchange

- Electronic Orders and Information
- Trade Matching
- Transportation
- Right of Rejection
- Failure to Deliver
- Dispute Resolution
- Business Conduct
- Disclaimer/Limitation of Liability
- Insolvency and Bankruptcy
- Emergencies
- Force Majeure

Set forth below are the policies that govern the trading and operations of The Exchange. Participant, in completing and executing the Participation Application and Agreement, agrees to be subject to and comply with the following Policies.

These Policies may be amended from time to time by electronic notification to all Participants. Each Participant will be given the opportunity to terminate its participation in The Exchange because of such amendment. Any Participant that does not elect to terminate its participation will be deemed to have accepted the amended terms.

Electronic Orders and Information

Any orders given by a Participant and any information furnished to a Participant electronically via the Internet shall be subject to the following terms and conditions:

- If an order has been placed through the Internet and a Participant has not received an accurate electronic confirmation of the order or of its execution in a timely manner, the Participant must immediately notify TPE.
- If Participant has received confirmation of an order which Participant did not place or any similar conflicting report, Participant must immediately notify TPE.

- Each Participant must immediately notify TPE if there is unauthorized use of its Password, ID or other security data.
- If a Participant fails to notify TPE in writing when any of the above conditions occur, neither TPE nor any of its employees, agents, affiliates, subsidiaries, or its parent, nor any third parties, can or will have any responsibility or liability to the Participant or to any other person whose claim may arise through the Participant for any claims with respect to the handling, mishandling, or loss of any order. TPE shall not be deemed to have received any order or similar instruction electronically transmitted by Participant until TPE has acknowledged to the Participant that the order or similar instruction has been actually received. Each Participant is fully responsibility for the monitoring of its Account.
- All orders entered on The Exchange shall be good-til-canceled which means that they will be open until they are either canceled or matched.

Trade Matching

Participants' orders are electronically matched by The Exchange based on price and time of entry, considering freight charges. Upon the matching of a buy and sell order, the transaction becomes a legally binding contract and The Exchange generates an electronic confirmation which is automatically sent to both the buy and sell Participants. TPE, in the absence of such additional delivery instructions, will initiate delivery following Participant's default instructions. If necessary, Participants are required to forward any additional delivery instructions to The Exchange immediately following the transaction either via phone at 800-967-9619, e-mail to Logistics@ThePlasticsExchange.com or system message.

Once a transaction becomes a legally binding contract, both parties to the contract must perform (Seller must deliver, Buyer must take delivery). Netting of transactions is not permitted. TPE reserves the right to mitigate disputed trades in a fair and equitable manner.

Transportation

Each Contract includes the provision and cost of delivery. Delivery shall be provided by TPE through its Transportation Partner(s). Because transportation is an integral part of each contract, Participant must provide delivery instructions to TPE upon approval as a Participant. Neither the Transportation Partner nor TPE shall be liable for any consequential damages that occur in transit.

Right of Rejection

A Participant may only reject delivery of a Contract where the Product delivered does not meet the standardized contract specifications set forth in Appendix II of the Agreement as amended from time to time. The Participant must notify TPE immediately of such rejection. TPE, upon such notification, may dispatch an independent party to analyze the Product for compliance with the standardized contract specifications.

If the Product meets such specifications, Buyer must bear the cost of such independent analysis and must accept delivery.

If the Product does not meet such specifications, Seller must bear the cost of such independent analysis and the cost of return shipping. Further, the Seller must accept the returned Product and ship to Buyer a Product that meets the standardized contract specifications.

If Seller is unable to provide such Product, TPE will purchase a substitute Product at the current market price and Seller shall be responsible for all related costs, including any difference in price.

Failure to Deliver

If a Seller fails to deliver any order pursuant to the terms of the Contract, TPE may purchase the Product at the prevailing market price for the benefit of the Buyer and the Seller shall be responsible for all costs related to such failure, including any price difference. TPE may offset these fees and other payables against payment due to Seller.

Dispute Resolution

Each Participant must agree that it will use its best efforts to resolve any dispute that arises between the Participant and TPE and/or B2BExchangeCredit, LLC by participating in a meeting with the management of TPE. If the parties cannot come to an agreement through such meeting, the Participant must agree to submit to binding arbitration that will be conducted by FedNet, Inc[1]. Each Participant must further agree to submit to binding arbitration when a dispute is brought to arbitration that involves the contraparty to any corresponding trade of the Participant and/or B2BExchangeCredit, LLC.

Business Conduct

Participants must adhere to the following restrictions and requirements. For violating any of the following, TPE may, in its sole discretion, impose such sanctions against Participant as TPE may deem reasonable and appropriate, including but not limited to fine, suspension, termination or any such other sanction.

- Neither a Participant nor any employee of a Participant shall engage in any fraudulent act or to deceive, trick or engage in any scheme to defraud, in connection with or related to any trade on or other activity related to The Exchange. Orders of Contracts entered in The Exchange for the purpose of upsetting the equilibrium of the market and bringing about a condition of demoralization in which prices do not or will not reflect fair market values, are forbidden and any TPE and any employee of a TPE who makes or assists in entering such orders with knowledge of the purpose thereof, or who, with such knowledge shall be a party to assist in carrying out any plan or scheme for the entering of such orders shall be deemed guilty of an act inconsistent with just and equitable principles of trade.

- Manipulation of the market is prohibited.
- It shall be an offense to violate any TPE Policy regulating the conduct or business of Participant, or any agreement made with TPE, or to engage in fraud, dishonorable or dishonest conduct, or in conduct or proceedings inconsistent with just and equitable principles of trade, or intentionally default on the delivery of any Contract.
- It shall be an offense against TPE to make a misstatement of material fact to TPE.
- Neither a Participant nor any employee of a Participant may use its right of access to The Exchange in any way which would tend to bring disrepute upon the Participant or The Exchange.

Disclaimer/Limitation of Liability

TPE shall not be responsible for the accuracy, completeness, or use of any information received by TPE from a Participant. TPE shall not be responsible for any damages caused by communications line failure, unauthorized access, theft, systems failure, and other occurrences beyond TPE's control. TPE shall not be responsible for any damages in the event that any order is not received by TPE. TPE shall have no liability if any or all of TPE's systems or the systems of any third party working with TPE "goes down" or otherwise fails to operate for any period of time. TPE is not liable for a Participant's inability to provide such access or for any delay in TPE's providing such access. To the extent that the System utilizes Internet or similar open telecommunication line services to transport data or communications, although TPE will take reasonable security precautions, TPE expressly disclaims any liability for interception of any such data or communications, and TPE shall not be responsible for and TPE makes no warranties regarding, the access, speed or availability of Internet or network services. The use and storage of any information, including without limitation, transaction activity, and any other information or orders available through a Participant's right of access to The Exchange ("Electronic Access") and all orders placed through the Electronic Access, is at each Participant's sole risk and responsibility. THE ELECTRONIC ACCESS IS PROVIDED AT EACH PARTICIPANT'S SOLE RISK ON AN "AS IS," "AS AVAILABLE" BASIS. NEITHER TPE NOR ANY ITS DIRECTORS, OFFICERS, EMPLOYEES, AGENTS, CONTRACTORS, AFFILIATES, INFORMATION PROVIDERS, LICENSORS, OR OTHER SUPPLIERS PROVIDING DATA, INFORMATION, ACCESS OR SOFTWARE (COLLECTIVELY, "THE TPE PARTIES") MAKES ANY REPRESENTATIONS OR WARRANTIES EXPRESS OR IMPLIED INCLUDING WITHOUT LIMITATION ANY WARRANTY THAT THE ELECTRONIC ACCESS WILL BE UNINTERRUPTED OR ERROR FREE OR MAKES ANY WARRANTIES INCLUDING IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE IN RESPECT OF THE ELECTRONIC ACCESS OR PRODUCTS OBTAINED FROM, THROUGH, OR IN CONNECTION WITH THE ELECTRONIC ACCESS; NOR DO ANY OF THE TPE PARTIES MAKE ANY WARRANTY AS TO THE RESULTS THAT MAY BE OBTAINED FROM THE USE OF SUCH ELECTRONIC ACCESS, OR AS TO THE TIMELINESS, SEQUENCE, ACCURACY, COMPLETENESS, RELIABILITY OR CONTENT OF ANY DATA, INFORMATION, ACCESS OR TRANSACTIONS PROVIDED THROUGH THE ELECTRONIC ACCESS; IN NO EVENT WILL ANY

OF THE TPE PARTIES BE LIABLE FOR DIRECT, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES, RESULTING FROM ANY DEFECT IN, OR USE OF, OR INABILITY TO USE THE ELECTRONIC ACCESS (INCLUDING BUT NOT LIMITED TO LOST PROFITS, TRADING LOSSES OR DAMAGES THAT RESULT FROM LOSS OF THE USE OF THE ELECTRONIC ACCESS, INCONVENIENCE OR DELAY), EVEN IF ANY OF THE TPE PARTIES HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES OR LOSSES.

Insolvency and Bankruptcy

If a Participant fails to perform its contracts or is near insolvency or becomes insolvent, such Participant shall promptly notify TPE of such fact. In such event, and even if such Participant fails to give notice to TPE, TPE may terminate or cancel the Participant's right of access if it deems it necessary.

Whenever an order for relief under the United States Bankruptcy Code (hereinafter, the "Bankruptcy Code") is entered for a Participant, Participants having Exchange Contracts with the bankrupt Participant may proceed to close the same on The Exchange in accordance with the provisions of this policy.

Emergencies

In the event of an Emergency, TPE, may place into immediate effect a temporary emergency policy which may remain in effect for up to thirty (30) Business Days and which may provide for, or may authorize TPE to undertake actions necessary or appropriate to meet the Emergency, including, but not limited to, such actions as:

- limiting trading to liquidation only, in whole or in part;
- extending the time of delivery;
- changing delivery points and/or the means of delivery;
- ordering the liquidation of contracts, the fixing of a settlement price or the reduction in positions;
- extending, limiting or changing hours of trading;
- suspending trading; or
- modifying or suspending any provision of the Policies of The Exchange.

If, in the judgment of TPE, the physical functions of The Exchange are, or are threatened to be, severely and adversely affected by a physical emergency, TPE shall have authority to take such action as it deems necessary or appropriate to deal with such physical emergency. Such authorized action shall include, but shall not be limited to, closing The Exchange, delaying the opening of trading in any one or more Contracts and/or suspending trading in or extending trading hours for any one or more Contracts; provided, however, that suspension of trading ordered pursuant to this paragraph shall not continue in effect for more than five (5) Business Days unless TPE approves extending such action.

In the event such action is taken, thereafter TPE may order restoration of trading on The Exchange or removal of any other restriction heretofore imposed pursuant to this paragraph, upon a determination by TPE that the physical emergency has sufficiently abated to permit the physical functions of The Exchange to continue in an orderly manner.

Force Majeure

If strike, fire, accident, ice, equipment malfunction or other act of God which might otherwise be described as "Force Majeure" results in the failure of seller to deliver on a Contract, The Exchange's obligation to make delivery will be extended daily until such condition of Force Majeure no longer exists.

---

A Participant may only reject delivery of a Contract where the Product delivered does not meet the standardized contract specifications set forth in Appendix II of the Agreement as amended from time to time. The Participant must notify TPE immediately of such rejection. TPE, upon such notification, may dispatch an independent party to analyze the Product for compliance with the standardized contract specifications.

If the Product meets such specifications, Buyer must bear the cost of such independent analysis and must accept delivery.

If the Product does not meet such specifications, Seller must bear the cost of such independent analysis and the cost of return shipping. Further, the Seller must accept the returned Product and ship to Buyer a Product that meets the standardized contract specifications.

If Seller is unable to provide such Product, TPE will purchase a substitute Product at the current market price and Seller shall be responsible for all related costs, including any difference in price.

Failure to Deliver

If a Seller fails to deliver any order pursuant to the terms of the Contract, TPE may purchase the Product at the prevailing market price for the benefit of the Buyer and the Seller shall be responsible for all costs related to such failure, including any price difference. TPE may offset these fees and other payables against payment due to Seller.

Dispute Resolution

Each Participant must agree that it will use its best efforts to resolve any dispute that arises between the Participant and TPE and/or B2BExchangeCredit, LLC by participating in a meeting with the management of TPE. If the parties cannot come to an agreement through such meeting, the Participant must agree to submit to binding arbitration that will be conducted by FedNet, Inc[1]. Each Participant must further agree to submit to binding arbitration when a dispute is brought to arbitration that involves the contraparty to any corresponding trade of the Participant and/or B2BExchangeCredit, LLC.

Business Conduct

Participants must adhere to the following restrictions and requirements. For violating any of the following, TPE may, in its sole discretion, impose such sanctions against Participant as TPE may deem reasonable and appropriate, including but not limited to fine, suspension, termination or any such other sanction.

- Neither a Participant nor any employee of a Participant shall engage in any fraudulent act or to deceive, trick or engage in any scheme to defraud, in connection with or related to any trade on or other activity related to The Exchange. Orders of Contracts entered in The Exchange for the purpose of upsetting the equilibrium of the market and bringing about a condition of demoralization in which prices do not or will not reflect fair market values, are forbidden and any TPE and any employee of a TPE who makes or assists in entering such orders with knowledge of the purpose thereof, or who, with such knowledge shall be a party to assist in carrying out any plan or scheme for the entering of such orders shall be deemed guilty of an act inconsistent with just and equitable principles of trade.

- Manipulation of the market is prohibited.
- It shall be an offense to violate any TPE Policy regulating the conduct or business of Participant, or any agreement made with TPE, or to engage in fraud, dishonorable or dishonest conduct, or in conduct or proceedings inconsistent with just and equitable principles of trade, or intentionally default on the delivery of any Contract.
- It shall be an offense against TPE to make a misstatement of material fact to TPE.
- Neither a Participant nor any employee of a Participant may use its right of access to The Exchange in any way which would tend to bring disrepute upon the Participant or The Exchange.

Disclaimer/Limitation of Liability

TPE shall not be responsible for the accuracy, completeness, or use of any information received by TPE from a Participant. TPE shall not be responsible for any damages caused by communications line failure, unauthorized access, theft, systems failure, and other occurrences beyond TPE's control. TPE shall not be responsible for any damages in the event that any order is not received by TPE. TPE shall have no liability if any or all of TPE's systems or the systems of any third party working with TPE "goes down" or otherwise fails to operate for any period of time. TPE is not liable for a Participant's inability to provide such access or for any delay in TPE's providing such access. To the extent that the System utilizes Internet or similar open telecommunication line services to transport data or communications, although TPE will take reasonable security precautions, TPE expressly disclaims any liability for interception of any such data or communications, and TPE shall not be responsible for and TPE makes no warranties regarding, the access, speed or availability of Internet or network services. The use and storage of any information, including without limitation, transaction activity, and any other information or orders available through a Participant's right of access to The Exchange ("Electronic Access") and all orders placed through the Electronic Access, is at each Participant's sole risk and responsibility. THE ELECTRONIC ACCESS IS PROVIDED AT EACH PARTICIPANT'S SOLE RISK ON AN "AS IS," "AS AVAILABLE" BASIS. NEITHER TPE NOR ANY ITS DIRECTORS, OFFICERS, EMPLOYEES, AGENTS, CONTRACTORS, AFFILIATES, INFORMATION PROVIDERS, LICENSORS, OR OTHER SUPPLIERS PROVIDING DATA, INFORMATION, ACCESS OR SOFTWARE (COLLECTIVELY, "THE TPE PARTIES") MAKES ANY REPRESENTATIONS OR WARRANTIES EXPRESS OR IMPLIED INCLUDING WITHOUT LIMITATION ANY WARRANTY THAT THE ELECTRONIC ACCESS WILL BE UNINTERRUPTED OR ERROR FREE OR MAKES ANY WARRANTIES INCLUDING IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE IN RESPECT OF THE ELECTRONIC ACCESS OR PRODUCTS OBTAINED FROM, THROUGH, OR IN CONNECTION WITH THE ELECTRONIC ACCESS; NOR DO ANY OF THE TPE PARTIES MAKE ANY WARRANTY AS TO THE RESULTS THAT MAY BE OBTAINED FROM THE USE OF SUCH ELECTRONIC ACCESS, OR AS TO THE TIMELINESS, SEQUENCE, ACCURACY, COMPLETENESS, RELIABILITY OR CONTENT OF ANY DATA, INFORMATION, ACCESS OR TRANSACTIONS PROVIDED THROUGH THE ELECTRONIC ACCESS; IN NO EVENT WILL ANY

OF THE TPE PARTIES BE LIABLE FOR DIRECT, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES, RESULTING FROM ANY DEFECT IN, OR USE OF, OR INABILITY TO USE THE ELECTRONIC ACCESS (INCLUDING BUT NOT LIMITED TO LOST PROFITS, TRADING LOSSES OR DAMAGES THAT RESULT FROM LOSS OF THE USE OF THE ELECTRONIC ACCESS, INCONVENIENCE OR DELAY), EVEN IF ANY OF THE TPE PARTIES HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES OR LOSSES.

Insolvency and Bankruptcy

If a Participant fails to perform its contracts or is near insolvency or becomes insolvent, such Participant shall promptly notify TPE of such fact. In such event, and even if such Participant fails to give notice to TPE, TPE may terminate or cancel the Participant's right of access if it deems it necessary.

Whenever an order for relief under the United States Bankruptcy Code (hereinafter, the "Bankruptcy Code") is entered for a Participant, Participants having Exchange Contracts with the bankrupt Participant may proceed to close the same on The Exchange in accordance with the provisions of this policy.

Emergencies

In the event of an Emergency, TPE, may place into immediate effect a temporary emergency policy which may remain in effect for up to thirty (30) Business Days and which may provide for, or may authorize TPE to undertake actions necessary or appropriate to meet the Emergency, including, but not limited to, such actions as:

- limiting trading to liquidation only, in whole or in part;
- extending the time of delivery;
- changing delivery points and/or the means of delivery;
- ordering the liquidation of contracts, the fixing of a settlement price or the reduction in positions;
- extending, limiting or changing hours of trading;
- suspending trading; or
- modifying or suspending any provision of the Policies of The Exchange.

If, in the judgment of TPE, the physical functions of The Exchange are, or are threatened to be, severely and adversely affected by a physical emergency, TPE shall have authority to take such action as it deems necessary or appropriate to deal with such physical emergency. Such authorized action shall include, but shall not be limited to, closing The Exchange, delaying the opening of trading in any one or more Contracts and/or suspending trading in or extending trading hours for any one or more Contracts; provided, however, that suspension of trading ordered pursuant to this paragraph shall not continue in effect for more than five (5) Business Days unless TPE approves extending such action.

In the event such action is taken, thereafter TPE may order restoration of trading on The Exchange or removal of any other restriction heretofore imposed pursuant to this paragraph, upon a determination by TPE that the physical emergency has sufficiently abated to permit the physical functions of The Exchange to continue in an orderly manner.

Force Majeure

If strike, fire, accident, ice, equipment malfunction or other act of God which might otherwise be described as "Force Majeure" results in the failure of seller to deliver on a Contract, The Exchange's obligation to make delivery will be extended daily until such condition of Force Majeure no longer exists.

_____ ("Participant") by completing this Application and Agreement ("Agreement"), applies to ThePlasticsExchange.com, LLC ("TPE") for the right of access to the electronic trading system operated by TPE ("The Exchange"). Participant understands and agrees that this Agreement is made pursuant to and subject to the TPE Policies set forth in Appendix I as amended from time to time.
</SPAN>

<SPAN CLASS=S6>Incorporation of The Plastics Exchange Policies ("TPE Policies")</SPAN>
<SPAN>
This Agreement incorporates the TPE Policies as amended from time to time and makes the TPE Policies part of this Agreement in their entirety. In the event of a conflict between the terms and conditions of this Agreement and any other terms and conditions set forth in the TPE Policies, the terms and conditions of the TPE Policies shall apply.
</SPAN>

<SPAN CLASS=S6>System Operations</SPAN>
<SPAN>

Services Provided by TPE. TPE will provide Participant with access to The Exchange via the Internet or otherwise to engage in the trading of certain

generic and branded plastic resin product ("Products") in the cash market in the form of standardized contracts ("Contracts"). TPE may add new contacts or delete existing contracts at any time. The Exchange will allow Participant to enter, modify or cancel orders to sell Contracts, to obtain information from The Exchange and to communicate with The Exchange via the Internet. The Exchange will provide a trade matching function to match Participant's orders with any eligible purchase orders existing in The Exchange. The Exchange will communicate all successfully matched orders to Participant. TPE will also provide account management services, including freight, logistics and a credit function for facilitation of payment for transactions.
Designated Representatives. Each Participant may designate certain of its employees as representatives to be authorized to access The Exchange ("Designated Representatives"). These Designated Representatives will also be able to enter, modify or cancel orders and transmit instructions to TPE.
Password and User ID. Participant will select an individual User ID and Password, subject to TPE's approval, with which to access the system. Participant will also select an individual Password, subject to TPE's approval, for each Designated Representative of a Participant.
Electronic Equipment. Participant acknowledges that it is responsible for providing all computer equipment, technology and communication lines to access The Exchange and is responsible for paying all related costs, charges and fees.

</SPAN>

<SPAN CLASS=S6>Representations, Warranties and Covenants of the Participant</SPAN>
<SPAN>

Basic Representations and Warranties. Participant represents and warrants that as of the date of this Agreement (a) it is duly organized, validly existing and in good standing under the jurisdiction of its organization, with full power and authority to enter into and perform its obligations under this Agreement; (b) it, through an authorized officer, has validly executed this Agreement; (c) this Agreement constitutes its legal, valid and binding obligation, enforceable against it in accordance with its terms, except as the enforcement may be limited by applicable bankruptcy, reorganization, insolvency or similar laws affecting the enforcement of creditors' rights generally; and (d) its entry into this Agreement and the performance of its obligations hereunder will not violate, conflict with, or cause a default under any of its organizational documents, any material contractual covenant or restriction by which it is bound, or any applicable law, regulation, rule, ordinance, order, judgment, or decree.
Participant's Transactions. Participant warrants that: (a) every sale by it of a Product will be for its own account or, if it is authorized and/or licensed to do so legally, for another entity; (b) it is capable, at the time Participant submits an order to The Exchange, of making delivery of all sales via truck load and rail car made by it pursuant to this Agreement and the TPE Policies; (c) all orders entered on the system shall be in U.S. dollars and priced on a per pound basis; (d) it is a producer, authorized distributor, compounder, broker, or reseller of plastic resin products; (e) all products it offers and ships are FDA certified and conform to the standardized contract specifications set forth in Appendix II; (f) all product shipped will be CERTIFIED PRIME, the seller must only ship the brand offered for sale; (g) and it is not an individual speculator, commodity pool, passive collective investment vehicle or other non-commercial entity; (h) it will not use its access to engage in trading futures contracts that are subject to regulation by

the Commodity Futures Trading Commission under the Commodity Exchange Act, as amended, or for speculative purposes; (i) it is in good financial standing such that it is now and will remain fully able to satisfy its financial obligations in every transaction in which it engages; and (j) except as may be excused due to an uncontrollable force or for a bona fide commercial reason, each sale it makes through TPE shall be for actual delivery.
Each Contract includes the provision and cost of delivery. Delivery shall be provided by TPE through its Transportation Partner(s). Because transportation is an integral part of each contract, Participant must provide delivery instructions to TPE upon approval as a Participant. Neither the Transportation Partner nor TPE shall be liable for any consequential damages that occur in transit.

In addition, for those Contracts with delivery by truck, Participant warrants that: (a) all truckloads will be packages in gaylords standard to the industry; (b) the net weight of each shipment will be clearly displayed on each gaylord; (c) the gaylord weights in each truckload will be consistent to one another; (d) the gross weight net tere will be added to the bill of lading; and (e) each shipment shall be of a net weight of approximately 42,000 lbs,. Truckloads must be prepared to be picked up by TPE's transportation partner(s) from the location's dock as designated on the offer placed and shall be shipped within 3 business days of receipt of notice of a matched trade.

For those Contracts delivered by rail car, Participant warrants that all shipments shall be of a net weight of approximately 190,000 lbs., Further; Participant warrants that all deliveries by rail car will be shipped in rail cars that bear no identifying markings of Participant. Railcars must be prepared to be picked up by TPE's transportation partner(s) from the location's shipyard as designated on the offer placed and shall be shipped within 10 business days of receipt of notice of a matched trade.

Performance by Participant. Participant covenants to abide by, and perform all of its obligations required under the TPE Policies and this Agreement including, without limitation, all matters relating to the trading of Contracts, and all ongoing obligations with respect to offers, settlement, delivery, security requirements, billing and payments, confidentiality and dispute resolution.
Financial Standing. Participant represents that it is in good financial condition. Participant further represents that it will provide TPE with sufficient information to allow TPE to verify such condition. If TPE is not satisfied with Participant's financial condition, Participant will be given the opportunity to provide additional security to TPE in such form as TPE may, in its sole discretion, desire, including security in the form of a performance bond or an irrevocable letter of credit for the benefit of TPE. TPE reserves the right to refuse access rights to any person, in its sole discretion, based on its financial condition or otherwise. TPE reserves the right to limit the number of orders and total value of the orders placed by Participant on the Exchange.
Fees. Participant agrees to remit to TPE a percentage of the value of each Contract for the sale of a Product upon confirmation of the trade by both parties. This percentage shall be 2% for Contracts with delivery by rail and 3% for Contracts with delivery by truck. Such fee shall be deducted from gross proceeds due to Seller.
Payment. Participant agrees to the payment terms set forth in Appendix III.
Certificate of Analysis. Seller may be required to provide TPE with a Certificate of Analysis upon shipment of the Product.

</SPAN>

<SPAN CLASS=S6>Operational Procedures</SPAN>
<SPAN>

Reliance Upon Instructions. Participant acknowledges and consents to TPE's acceptance, execution and/or reliance upon any order or instruction from Participant or any of its Designated Representatives that is entered into The Exchange under the Participant's User IDs and Password. TPE shall have no responsibility or liability for any errors which may occur in the course of any electronic transmission to The Exchange. Participant shall indemnify, defend and hold TPE harmless for information entered into The Exchange using the User ID and Password selected by the Participant and/or its Designated Representative or actions taken upon the instruction of Participant or its Designated Representatives.
Recordings. Participant expressly grants to TPE the right to tape, record or otherwise monitor, store, review and use all communications, electronic or otherwise, between the Participant and TPE, its agents and successors, without limitation.
Market Integrity. Participant irrevocably and without reservation consents to the use by TPE of all information (including Participant's identity) regarding bids, offers, matches, its credit information, and all information relating to any of the foregoing in connection with the monitoring and maintaining the integrity of The Exchange. Participant also irrevocably and without reservation consents to the use by TPE of all such information received from Participant, except Participant's identity, for all other uses.
Power of Attorney. Participant hereby irrevocably constitutes and appoints TPE and any of its officers or agents, with full power of substitution, as its attorney-in-fact with full power and authority in the name of Participant for the purpose of (a) correcting errors and mitigating potential losses arising from errors and claimed errors and (b) upon the occurrence and during the continuance of a default by Participant in meeting its obligations under this Agreement (including, without limitation, the obligation to provide and maintain security in accordance with the terms of this Agreement), canceling orders, liquidating positions and making trades for the purpose of reducing the credit exposure or fulfilling the obligations of Participant.
Confidentiality. Participant acknowledges that all information provided by TPE on The Exchange is confidential. Participant warrants that it will not make any such information obtained via The Exchange available to third parties. Participant covenants to keep confidential and not publish, broadcast, retransmit, reproduce, commercially exploit, or otherwise redisseminate the data, information, or services provided under the Agreement or received via Internet. Participant covenants to keep confidential its User IDs, Password(s), and other security data, methods and devices.
Right of Inspection. Participant expressly grants to TPE the right to inspect Participant's facilities upon reasonable notice. Participant acknowledges that TPE may inspect such facilities on a repeated basis.
Consents and Waivers Not Comprehensive. The consents, waivers and releases contained in this Section are not intended to be an exclusive and comprehensive enumeration of all consents, waivers and releases granted by the Participant pursuant to this Agreement or TPE Policies.

</SPAN>

<SPAN CLASS=S6>Indemnification</SPAN>
<SPAN>
Participant agrees to defend, indemnify and hold TPE, its officers, directors, employees and agents harmless from and against any claims, losses, liabilities,

costs and expenses (including but not limited to attorney's fees) arising out of: any breach by Participant or its Designated Representative of any representation, warranty or covenant made in connection with this Agreement any violation by Participant or its Designated Representative of the TPE Policies; any violation by Participant or its Designated Representative of any third party rights including but not limited to copyright, proprietary and privacy rights; and, if Participant allows third parties to access TPE's services, any claim or suit by such third party based upon or relating to such access and use. The terms of this indemnification shall survive the termination of this Agreement.
</SPAN>

<SPAN CLASS=S6>Suspension</SPAN>
<SPAN>
TPE reserves the right to suspend Participant's access to The Exchange immediately if TPE, in its sole discretion, determines that such suspension is in the best interests of The Exchange in order to preserve the integrity of the market.
</SPAN>

<SPAN CLASS=S6>Term and Termination</SPAN>
<SPAN>

Term. This Agreement shall commence on the later of the date this Agreement is executed or the date Participant is approved by TPE, and shall continue until terminated in accordance with the Termination provisions below.
Termination. This Agreement may be terminated by either party upon one business day's prior written notice to the other party, subject to the survival of all payment, delivery and other obligations to which the Participant is subject at the time of termination. TPE may terminate this Agreement immediately if Participant violates any Policy of TPE. Participant agrees that its status as a Participant is at all times subject to this Agreement and, in particular, that its access to The Exchange may be terminated in accordance with this Agreement.
Termination is Not Waiver. The termination of this Agreement, either by TPE or by Participant, shall not cancel, void, satisfy or waive any payment or other obligation owing by Participant to TPE or to any other entity.

</SPAN>

<SPAN CLASS=S6>Assignment</SPAN>
<SPAN>
None of the rights or obligations under this Agreement may be assigned or delegated by Participant, whether by operation of law or otherwise, without the prior written consent of TPE, which consent shall not be unreasonably withheld, delayed or conditioned; provided that TPE may, in its sole discretion, consent to an assignment by Participant of any of Participant's obligations under this Agreement. TPE may assign or delegate its rights or obligations under this Agreement.
</SPAN>

<SPAN CLASS=S6>Partial Invalidity</SPAN>
<SPAN>

If any provision of this Agreement, or the application of such provision to any person, circumstance or transaction, shall be held invalid, the remainder of this Agreement, or the application of such provision to other persons, circumstances or transactions, shall not be affected. The partial invalidity of this Agreement shall not cancel, void, satisfy or waive any payment owing by and due from Participant to TPE or to any other entity.
</SPAN>

<SPAN CLASS=S6>Notices</SPAN>
<SPAN>
Any notice, demand or request made to or by either party regarding this Agreement shall be made in accordance with this Agreement and the TPE Policies and unless otherwise stated or agreed shall be made to the representative of the other party indicated below:
<table>

</table>
Any general notice to all Participants regarding the operation of The Exchange, including the addition or deletion of Contracts, that is posted on TPE's electronic website shall be considered adequate notice.
</SPAN>

<SPAN CLASS=S6>Applicable Law</SPAN>
<SPAN>
This Agreement shall be governed by and construed in accordance with the laws of the State of Illinois in all disputes arising out of and in connection with this Agreement and shall be subject to the jurisdiction of the U.S. District Court for the Northern District of Illinois and the Circuit Court of Cook County, Illinois.
</SPAN>

<SPAN>
Participant, in executing this Application and Agreement, confirms that all information provided by Participant is true and complete and agrees to each and all terms contained in this Agreement. In addition, Participant's signature represents agreement to abide by the TPE Policies as they now exist or may from time to time be amended by electronic notification to all Participants. Each Participant will be given the opportunity to terminate its participation in The Exchange because of such amendment. Any Participant that does not elect to terminate its participation will be deemed to have accepted the amended terms.

Further, if Participant has any Designated Representatives, Participant represents that they will observe and be bound by the TPE Policies.

<table width=100% border=0>
<tr valign=_top>
<td>

Title:_____
</td></tr></table>
</SPAN>
<SPAN CLASS=S6>Appendix I
The Plastics Exchange Policies</SPAN>
<SPAN>
Set forth below are the policies that govern the trading and operations of The Exchange. Participant, in completing and executing the Participation Application and Agreement, agrees to be subject to and comply with the following Policies.

These Policies may be amended from time to time by electronic notification to all Participants. Each Participant will be given the opportunity to terminate its participation in The Exchange because of such amendment. Any Participant that does not elect to terminate its participation will be deemed to have accepted the amended terms.
</SPAN>

<SPAN CLASS=S6>Electronic Orders and Information</SPAN>
<SPAN>
Any orders given by a Participant and any information furnished to a Participant electronically via the Internet shall be subject to the following terms and conditions:

If an order has been placed through the Internet and a Participant has not received an accurate electronic confirmation of the order or of its execution in a timely manner, the Participant must immediately notify TPE.
If Participant has received confirmation of an order which Participant did not place or any similar conflicting report, Participant must immediately notify TPE.
Each Participant must immediately notify TPE if there is unauthorized use of its Password, ID or other security data.
If a Participant fails to notify TPE in writing when any of the above conditions occur, neither TPE nor any of its employees, agents, affiliates, subsidiaries, or its parent, nor any third parties, can or will have any responsibility or liability to the Participant or to any other person whose claim may arise through the Participant for any claims with respect to the handling, mishandling, or loss of any order. TPE shall not be deemed to have received any order or similar instruction electronically transmitted by Participant until TPE has acknowledged to the Participant that the order or similar instruction has been actually received. Each Participant is fully responsibility for the monitoring of its Account.
All orders entered on The Exchange shall be good-til-canceled which means that they will be open until they are either canceled or matched.

</SPAN>

<SPAN CLASS=S6>Trade Matching</SPAN>

<SPAN>
Participants' orders are electronically matched by The Exchange based on price and time of entry, considering freight charges. Upon the matching of a buy and sell order, the transaction becomes a legally binding contract and The Exchange generates an electronic confirmation which is automatically sent to both the buy and sell Participants. TPE, in the absence of such additional delivery instructions, will initiate delivery following Participant's default instructions. If necessary, Participants are required to forward any additional delivery instructions to The Exchange immediately following the transaction either via phone at 800-967-9619, e-mail to Logistics@ThePlasticsExchange.com or system message.

Once a transaction becomes a legally binding contract, both parties to the contract must perform (Seller must deliver, Buyer must take delivery). Netting of transactions is not permitted. TPE reserves the right to mitigate disputed trades in a fair and equitable manner.
</SPAN>

<SPAN CLASS=S6>Transportation</SPAN>
<SPAN>
Each Contract includes the provision and cost of delivery. Delivery shall be provided by TPE through its Transportation Partner(s). Because transportation is an integral part of each contract, Participant must provide shipping instructions to TPE upon application as a Participant. Neither the Transportation Partner nor TPE shall be liable for any consequential damages that occur in transit.
</SPAN>

<SPAN CLASS=S6>Right of Rejection</SPAN>
<SPAN>
A Participant may only reject delivery of a Contract where the Product delivered does not meet the standardized contract specifications set forth in Appendix II of the Agreement as amended from time to time. The Participant must notify TPE immediately of such rejection. TPE, upon such notification, may dispatch an independent party to analyze the Product for compliance with the standardized contract specifications.

If the Product meets such specifications, Buyer must bear the cost of such independent analysis and must accept delivery.

If the Product does not meet such specifications, Seller must bear the cost of such independent analysis and the cost of return shipping. Further, the Seller must accept the returned Product and ship to Buyer a Product that meets the standardized contract specifications.

If Seller is unable to provide such Product, TPE will purchase a substitute Product at the current market price and Seller shall be responsible for all related costs, including any difference in price.
</SPAN>

<SPAN CLASS=S6>Failure to Deliver</SPAN>
<SPAN>
If a Seller fails to deliver any order pursuant to the terms of the Contract, TPE may purchase the Product at the prevailing market price for the benefit of the Buyer and the Seller shall be responsible for all costs related to such failure, including any price difference. TPE may offset these fees and other payables against payment due to Seller.
</SPAN>

<SPAN CLASS=S6>Dispute Resolution</SPAN>
<SPAN>
Each Participant must agree that it will use its best efforts to resolve any dispute that arises between the Participant and TPE and/or B2BExchangeCredit, LLC by participating in a meeting with the management of TPE. If the parties cannot come to an agreement through such meeting, the Participant must agree to submit to binding arbitration that will be conducted by FedNet, Inc.[1] Each Participant must further agree to submit to binding arbitration when a dispute is brought to arbitration that involves the contraparty to any corresponding trade of the Participant and/or B2BExchangeCredit, LLC.
</SPAN>

<SPAN CLASS=S6>Business Conduct</SPAN>
<SPAN>
Participants must adhere to the following restrictions and requirements. For violating any of the following, TPE may, in its sole discretion, impose such sanctions against Participant as TPE may deem reasonable and appropriate, including but not limited to fine, suspension, termination or any such other sanction.

Neither a Participant nor any employee of a Participant shall engage in any fraudulent act or to deceive, trick or engage in any scheme to defraud, in connection with or related to any trade on or other activity related to The Exchange. Orders of Contracts entered in The Exchange for the purpose of upsetting the equilibrium of the market and bringing about a condition of demoralization in which prices do not or will not reflect fair market values, are forbidden and any TPE and any employee of a TPE who makes or assists in entering such orders with knowledge of the purpose thereof, or who, with such knowledge shall be a party to assist in carrying out any plan or scheme for the entering of such orders shall be deemed guilty of an act inconsistent with just and equitable principles of trade.
Manipulation of the market is prohibited.
It shall be an offense to violate any TPE Policy regulating the conduct or business of Participant, or any agreement made with TPE, or to engage in fraud, dishonorable or dishonest conduct, or in conduct or proceedings inconsistent with just and equitable principles of trade, or intentionally default on the delivery of any Contract.
It shall be an offense against TPE to make a misstatement of material fact to TPE.
Neither a Participant nor any employee of a Participant may use its right of access to The Exchange in any way which would tend to bring disrepute upon the Participant or The Exchange.

</SPAN>

<SPAN CLASS=S6>Disclaimer/Limitation of Liability</SPAN>
<SPAN>
TPE shall not be responsible for the accuracy, completeness, or use of any information received by TPE from a Participant. TPE shall not be responsible for any damages caused by communications line failure, unauthorized access, theft, systems failure, and other occurrences beyond TPE's control. TPE shall not be responsible for any damages in the event that any order is not received by TPE.

TPE shall have no liability if any or all of TPE's systems or the systems of any third party working with TPE "goes down" or otherwise fails to operate for any period of time. TPE is not liable for a Participant's inability to provide such access or for any delay in TPE's providing such access. To the extent that the System utilizes Internet or similar open telecommunication line services to transport data or communications, although TPE will take reasonable security precautions, TPE expressly disclaims any liability for interception of any such data or communications, and TPE shall not be responsible for and TPE makes no warranties regarding, the access, speed or availability of Internet or network services. The use and storage of any information, including without limitation, transaction activity, and any other information or orders available through a Participant's right of access to The Exchange ("Electronic Access") and all orders placed through the Electronic Access, is at each Participant's sole risk and responsibility. THE ELECTRONIC ACCESS IS PROVIDED AT EACH PARTICIPANT'S SOLE RISK ON AN "AS IS," "AS AVAILABLE" BASIS. NEITHER TPE NOR ANY ITS DIRECTORS, OFFICERS, EMPLOYEES, AGENTS, CONTRACTORS, AFFILIATES, INFORMATION PROVIDERS, LICENSORS, OR OTHER SUPPLIERS PROVIDING DATA, INFORMATION, ACCESS OR SOFTWARE (COLLECTIVELY, "THE TPE PARTIES") MAKES ANY REPRESENTATIONS OR WARRANTIES EXPRESS OR IMPLIED INCLUDING WITHOUT LIMITATION ANY WARRANTY THAT THE ELECTRONIC ACCESS WILL BE UNINTERRUPTED OR ERROR FREE OR MAKES ANY WARRANTIES INCLUDING IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE IN RESPECT OF THE ELECTRONIC ACCESS OR PRODUCTS OBTAINED FROM, THROUGH, OR IN CONNECTION WITH THE ELECTRONIC ACCESS; NOR DO ANY OF THE TPE PARTIES MAKE ANY WARRANTY AS TO THE RESULTS THAT MAY BE OBTAINED FROM THE USE OF SUCH ELECTRONIC ACCESS, OR AS TO THE TIMELINESS, SEQUENCE, ACCURACY, COMPLETENESS, RELIABILITY OR CONTENT OF ANY DATA, INFORMATION, ACCESS OR TRANSACTIONS PROVIDED THROUGH THE ELECTRONIC ACCESS; IN NO EVENT WILL ANY OF THE TPE PARTIES BE LIABLE FOR DIRECT, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES, RESULTING FROM ANY DEFECT IN, OR USE OF, OR INABILITY TO USE THE ELECTRONIC ACCESS (INCLUDING BUT NOT LIMITED TO LOST PROFITS, TRADING LOSSES OR DAMAGES THAT RESULT FROM LOSS OF THE USE OF THE ELECTRONIC ACCESS, INCONVENIENCE OR DELAY), EVEN IF ANY OF THE TPE PARTIES HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES OR LOSSES.
</SPAN>

<SPAN CLASS=S6>Insolvency and Bankruptcy</SPAN>
<SPAN>
If a Participant fails to perform its contracts or is near insolvency or becomes insolvent, such Participant shall promptly notify TPE of such fact. In such event, and even if such Participant fails to give notice to TPE, TPE may terminate or cancel the Participant's right of access if it deems it necessary.

Whenever an order for relief under the United States Bankruptcy Code (hereinafter, the "Bankruptcy Code") is entered for a Participant, Participants having Exchange Contracts with the bankrupt Participant may proceed to close the same on The Exchange in accordance with the provisions of this policy.
</SPAN>

<SPAN CLASS=S6>Emergencies</SPAN>
<SPAN>
In the event of an Emergency, TPE, may place into immediate effect a temporary emergency policy which may remain in effect for up to thirty (30) Business Days and which may provide for, or may authorize TPE to undertake actions necessary or appropriate to meet the Emergency, including, but not limited to, such actions as:

limiting trading to liquidation only, in whole or in part;
extending the time of delivery;
changing delivery points and/or the means of delivery;
ordering the liquidation of contracts, the fixing of a settlement price or the reduction in positions;
extending, limiting or changing hours of trading;
suspending trading; or
modifying or suspending any provision of the Policies of The Exchange.

If, in the judgment of TPE, the physical functions of The Exchange are, or are threatened to be, severely and adversely affected by a physical emergency, TPE shall have authority to take such action as it deems necessary or appropriate to deal with such physical emergency. Such authorized action shall include, but shall not be limited to, closing The Exchange, delaying the opening of trading in any one or more Contracts and/or suspending trading in or extending trading hours for any one or more Contracts; provided, however, that suspension of trading ordered pursuant to this paragraph shall not continue in effect for more than five (5) Business Days unless TPE approves extending such action.

In the event such action is taken, thereafter TPE may order restoration of trading on The Exchange or removal of any other restriction heretofore imposed pursuant to this paragraph, upon a determination by TPE that the physical emergency has sufficiently abated to permit the physical functions of The Exchange to continue in an orderly manner.
</SPAN>

<SPAN CLASS=S6>Force Majeure</SPAN>
<SPAN>
If strike, fire, accident, ice, equipment malfunction or other act of God which might otherwise be described as "Force Majeure" results in the failure of seller to deliver on a Contract, The Exchange's obligation to make delivery will be extended daily until such condition of Force Majeure no longer exists.
</SPAN>

<SPAN CLASS=S6>Appendix III
Payment Terms</SPAN>
<SPAN>
Participant shall be paid in accordance within 45 days of shipment. Participant may elect to receive payment upon delivery at the corresponding discounted rate of the total payment due. Participant may elect to receive a discounted payment at any time prior to the 45th day after shipment which shall be discounted in accordance with the schedule set forth below:

("Participant"), by completing this Application and Agreement ("Agreement"), applies to ThePlasticsExchange.com, LLC ("TPE") for the right of access to the electronic trading system operated by TPE ("The Exchange"). Participant understands and agrees that this Agreement is made pursuant to and subject to the TPE Policies set forth in Appendix I as amended from time to time.

Incorporation of The Plastics Exchange Policies ("TPE Policies")

This Agreement incorporates the TPE Policies as amended from time to time and makes the TPE Policies part of this Agreement in their entirety. In the event of a conflict between the terms and conditions of this Agreement and any other terms and conditions set forth in the TPE Policies, the terms and conditions of the TPE Policies shall apply.

System Operations

Services Provided by TPE
TTPE will provide Participant with access to The Exchange via the Internet or otherwise to engage in the buying of certain generic and branded plastic resin product ("Products") in the cash market in the form of standardized contracts ("Contracts"). TPE may add new contracts or delete existing contracts at any time. The Exchange will allow Participant to enter, modify or cancel orders to purchase Contracts, to obtain information from The Exchange and to communicate with The Exchange via the Internet. The Exchange will provide a trade matching function to match Participant's orders with any eligible sell orders existing in The Exchange. The Exchange will communicate all successfully matched orders to Participant. TPE will also provide account management services, including freight, logistics and a credit function for facilitation of payment for transactions.

Designated Representatives
Each Participant may designate certain of its employees as representatives to be authorized to access The Exchange ("Designated Representatives"). These Designated Representatives will also be able to enter, modify or cancel orders and transmit instructions to TPE.

Password and User ID
Participant will select an individual User ID and Password, subject to TPE's approval, with which to access the system. Participant will also select an individual Password, subject to TPE's approval, for each Designated Representative of a Participant.

Electronic Equipment
Participant acknowledges that it is responsible for providing all computer equipment, technology and communication lines to access The Exchange and is responsible for paying all related costs, charges and fees.

Representations, Warranties and Covenants of the Participant

Basic Representations and Warranties
Participant represents and warrants that as of the date of this Agreement:
- it is duly organized, validly existing and in good standing under the jurisdiction of its organization, with full power and authority to enter into and perform its obligations under this Agreement;
- it, through an authorized officer, has validly executed this Agreement;
- this Agreement constitutes its legal, valid and binding obligation, enforceable against it in accordance with its terms, except as the enforcement may be limited by applicable bankruptcy,

reorganization, insolvency or similar laws affecting the enforcement of creditors' rights generally; and

- 4. its entry into this Agreement and the performance of its obligations hereunder will not violate, conflict with, or cause a default under any of its organizational documents, any material contractual covenant or restriction by which it is bound, or any applicable law, regulation, rule, ordinance, order, judgment, or decree.

Participant's Transactions

Participant warrants that:

- every purchase by it of a Product will be for its own account or, if it is authorized and/or licensed to do so legally, for another entity;
- it is capable of accepting and will accept delivery of all purchases made by it pursuant to this Agreement and the TPE Policies;
- it is an end user or licensed distributor, reseller, compounder or broker of plastic resin products;
- it is not an individual speculator, commodity pool, passive collective investment vehicle or other non-commercial entity;
- it will not use its access to engage in trading futures contracts that are subject to regulation by the Commodity Futures Trading Commission under the Commodity Exchange Act, as amended, or for speculative purposes;
- it is in good financial standing such that it is now and will remain fully able to satisfy its financial obligations in every transaction in which it engages; and
- except as may be excused due to an uncontrollable force or for a bona fide commercial reason, each purchase it makes through TPE shall be for actual delivery.

Performance by Participant

Participant covenants to abide by, and perform all of its obligations required under the TPE Policies and this Agreement including, without limitation, all matters relating to the trading of Contracts, and all ongoing obligations with respect to bidding, settlement, delivery, security requirements, billing and payments, confidentiality and dispute resolution.

Right to Reject Delivery

Participant may only reject delivery of a Contract where the Product delivered does not meet the standardized contract specifications set forth in Appendix II as amended from time to time, in accordance with TPE Policy 4.

Financial Standing

Participant represents that it is in good financial condition. Participant further represents that it will provide TPE with sufficient information to allow TPE to verify such condition. If TPE is not satisfied with Participant's financial condition, Participant will be given the opportunity to provide additional security to TPE in such form as TPE may, in its sole discretion, desire, including security in the form of a performance bond or an irrevocable letter of credit for the benefit of TPE. TPE reserves the right to refuse access rights to any person, in its sole discretion, based on its financial condition or otherwise.

Financial Credit Guarantee

Participant agrees to secure appropriate financing from B2BExchangeCredit, LLC, the financial

partner of TPE, to ensure its credit worthiness to enter any order on The Exchange. Participant represents that it will not enter orders in an amount that exceeds Participant's line of credit from B2BExchangeCredit, LLC. Participant acknowledges that it will not be provided access to enter orders on The Exchange prior to obtaining such financing.

Payment
Buyer represents that it will pay for all Contracts delivered to and accepted by Participant in accordance with the B2BExchangeCredit, LLC Financing Agreement.

Rail Car Fee
For all rail deliveries, Participant agrees to release the rail car within 60 days of constructive placement of such rail car with Participant. Participant acknowledges and agrees to pay a penalty fee of $35.00 per day for each day Participant retains such rail car past 60 days.

Operational Procedures

Reliance Upon Instructions
Participant acknowledges and consents to TPE's acceptance, execution and/or reliance upon any order or instruction from Participant or any of its Designated Representatives that is entered into The Exchange under the Participant's User IDs and Password. TPE shall have no responsibility or liability for any errors which may occur in the course of any electronic transmission to The Exchange. Participant shall indemnify, defend and hold TPE harmless for information entered into The Exchange using the User ID and Password selected by the Participant and/or its Designated Representative or actions taken upon the instruction of Participant or its Designated Representatives.

Recordings
Participant expressly grants to TPE the right to tape, record or otherwise monitor, store, review and use all communications, electronic or otherwise, between the Participant and TPE, its agents and successors, without limitation.

Market Integrity
Participant irrevocably and without reservation consents to the use by TPE of all information (including Participant's identity) regarding bids, offers, matches, its credit information, and all information relating to any of the foregoing in connection with the monitoring and maintaining the integrity of The Exchange. Participant also irrevocably and without reservation consents to the use by TPE of all such information received from Participant, except Participant's identity, for all other uses.

Power of Attorney
Participant hereby irrevocably constitutes and appoints TPE and any of its officers or agents, with full power of substitution, as its attorney-in-fact with full power and authority in the name of Participant for the purpose of (a) correcting errors and mitigating potential losses arising from errors and claimed errors and (b) upon the occurrence and during the continuance of a default by Participant in meeting its obligations under this Agreement (including, without limitation, the obligation to provide and maintain security in accordance with the terms of this Agreement),

canceling orders, liquidating positions and making trades for the purpose of reducing the credit exposure or fulfilling the obligations of Participant.

Confidentiality
Participant acknowledges that all information provided by TPE on The Exchange is confidential. Participant warrants that it will not make any such information obtained via The Exchange available to third parties. Participant covenants to keep confidential and not publish, broadcast, retransmit, reproduce, commercially exploit, or otherwise redisseminate the data, information, or services provided under the Agreement or received via the Internet. Participant covenants to keep confidential its User IDs, Password(s), and other security data, methods and devices.

Consents and Waivers Not Comprehensive
The consents, waivers and releases contained in this Section are not intended to be an exclusive and comprehensive enumeration of all consents, waivers and releases granted by the Participant pursuant to this Agreement or TPE Policies.

Right of Inspection
Participant expressly grants to TPE the right to inspect Participant's facilities upon reasonable notice. Participant acknowledges that TPE may inspect such facilities on a repeated basis.

Indemnification

Participant agrees to defend, indemnify and hold TPE, its officers, directors, employees and agents harmless from and against any claims, losses, liabilities, costs and expenses (including but not limited to attorney's fees) arising out of: any breach by Participant or its Designated Representative of any representation, warranty or covenant made in connection with this Agreement; any violation by Participant or its Designated Representative of the TPE Policies; any violation by Participant or its Designated Representative of any third party rights including but not limited to copyright, proprietary and privacy right; and, if Participant allows third parties to access TPE's services, any claim or suit by such third parties based upon or related to such access and use. The terms of this indemnification shall survive the termination of this Agreement.

Suspension

TPE reserves the right to suspend Participant's access to the Exchange immediately if TPE, in its sole discretion, determines that such suspension is in the best interests of The Exchange in order to preserve the integrity of the market.

Term and Termination

Term
This Agreement shall commence on the later of the date this Agreement is executed or the date Participant is approved by TPE, and shall continue until terminated in accordance with the Termination provisions below.

Termination

This Agreement may be terminated by either party upon one business day's prior written notice to the other party, subject to the survival of all payment, delivery and other obligations to which the Participant is subject at the time of termination. TPE may terminate this Agreement immediately if Participant violates any Policy of TPE. Participant agrees that its status as a Participant is at all times subject to this Agreement and, in particular, that its access to The Exchange may be terminated in accordance with this Agreement.

Termination is Not Waiver

The termination of this Agreement, either by TPE or by Participant, shall not cancel, void, satisfy or waive any payment or other obligation owing by Participant to TPE or to any other entity.

Assignment

None of the rights or obligations under this Agreement may be assigned or delegated by Participant, whether by operation of law or otherwise, without the prior written consent of TPE, which consent shall not be unreasonably withheld, delayed or conditioned; provided that TPE may, in its sole discretion, consent to an assignment by Participant of any of Participant's obligations under this Agreement. TPE may assign or delegate its rights or obligations under this Agreement.

Partial Invalidity

If any provision of this Agreement, or the application of such provision to any person, circumstance or transaction, shall be held invalid, the remainder of this Agreement, or the application of such provision to other persons, circumstances or transactions, shall not be affected. The partial invalidity of this Agreement shall not cancel, void, satisfy or waive any payment owing by and due from Participant to TPE or to any other entity.

Notices

Any notice, demand or request made to or by either party regarding this Agreement shall be made in accordance with this Agreement and the TPE Policies and unless otherwise stated or agreed shall be made to the representative of the other party indicated below:

ThePlasticsExchange.com, LLC	Scott E. Early
Member Services	Foley & Lardner
730 N. LaSalle Street 3rd Floor	330 North Wabash Avenue Suite 3330
Chicago, IL 60610	Chicago, IL 60610

Participant: To the address set forth above

Any general notice to all Participants regarding the operation of The Exchange, including the addition or deletion of Contracts, that is posted on TPE's electronic website shall be considered adequate notice.

Applicable Law

This Agreement shall be governed by and construed in accordance with the laws of the State of Illinois in all disputes arising out of and in connection with this Agreement and shall be subject to the jurisdiction of the U.S. District Court for the Northern District of Illinois and the Circuit Court of Cook County, Illinois.

Jurisdictional Consent

I agree to be bound by the Policies of The Exchange and pledge myself to abide by the same and all subsequent amendments to the Policies, and by all regulations now existing, or which may hereafter be adopted by The Exchange. I also consent to the jurisdiction of The Exchange for all matters relating to my access and use of The Exchange as governed by the TPE Policies.

Participant, in executing this Application and Agreement, confirms that all information provided by Participant is true and complete and agrees to each and all terms contained in this Agreement. In addition, Participant's signature represents agreement to abide by the TPE Policies as they now exist or may from time to time be amended by electronic notification to all Participants. Each Participant will be given the opportunity to terminate its participation in The Exchange because of such amendment. Any Participant that does not elect to terminate its participation will be deemed to have accepted the amended terms. Further, if Participant has any Designated Representatives, Participant represents that they will observe and be bound by the TPE Policies.

B2BExchangeCredit, Demand Credit Agreement

THIS _____ day of _____, 20____, B2BExchangeCredit, LLC, a Delaware limited liability company (the "Lender") is pleased to confirm that the Lender may, in its sole and absolute discretion, make and extend credit to _____ [BORROWER] (the "Borrower") from time to time, on the following terms and conditions :

Line of credit amount and terms

Purpose: The Borrower has applied to and may be accepted as a member of the Internet exchange commonly known as "ThePlasticsExchange.com" ("The Exchange"), on which parties buy and sell plastics (the "Products"). The purpose of the line of credit established pursuant to this Agreement is to finance and clear the Borrower's purchases from time to time on the Exchange.

Line of Credit Amount: The Borrower may borrow, repay and reborrow from the Lender to and including the first anniversary hereof (the "Termination Date"), unless sooner notified by the

Lender of the termination of this line of credit, such amounts (the "Advances") as the Borrower may from time to time request, but not exceeding the credit limit established by the Lender from time to time, in the Lender's sole and absolute discretion. Such Advances shall be for the account of the borrower and/or paid at the direction of The Exchange.

Advances: The Advances will be payable on the earlier of the Termination Date or demand by the Lender. The Lender will record all Advances made pursuant to this Agreement and all payments by the Lender in its records, which records will be rebuttable presumptive evidence of the subject matter thereof.

Election to Make Advances: The Borrower agrees that its compliance with and its performance of the provisions of this Agreement do not obligate the Lender to make any Advances and that the Lender will make any Advance in its sole and absolute discretion.

Use of Advances; Prepayment Terms: When the Borrower buys Products on the Exchange, advances will be used by the Borrower to pay the corresponding percentage of the full-face Amount, which shall include transportation ? (collectively, the "Trade Amount") that is due on the day of the payment as described in Appendix III. An Advance in the amount of the Trade Amount shall be deemed advanced on the date on which the applicable Product(s) depart the warehouse of the seller thereof (the "Advance Date"); provided, however, that if the Borrower timely and properly rejects such Products in accordance with the rules of The Exchange, then the Advance will not be deemed made with respect to such Products. Each Advance shall be repayable by the Borrower to the Lender in accordance with the schedule noted as Appendix III.

Disbursements, payments and costs

Requests for Advances: The Borrower's execution of a trade as a buyer on the Exchange shall constitute a request for an Advance in the Trade Amount of the Borrower's trade.

Disbursements and Payments: Each Advance made by the Lender in its sole and absolute discretion and each payment by the Borrower will be made in immediately available funds and the Lender shall give no credit to the Borrower until the Lender has received collected funds.

Taxes: The Borrower will not deduct any taxes from any payments it makes to the Lender. If any government authority imposes any taxes on any payments made by the Borrower, the Borrower will pay the taxes and will also pay to the Lender, at the time interest is paid, any additional amount which the Lender specifies as necessary to preserve the after?tax yield the Lender would have received if such taxes had not been imposed. Upon request by the Lender, the Borrower will confirm that it has paid the taxes by giving the Lender official tax receipts (or notarized copies) within 30 days after the due date. The Borrower will not pay the Lender's net income taxes.

Conditions

Prior to requesting the initial Advance, the Borrower will furnish the Lender with each of the following documents, each duly executed and dated as of the date of the Borrower's acceptance of this Agreement:

- Authorizations: Evidence that the Borrower's execution, delivery and performance of this agreement have been duly authorized; in the form of a Corporate Resolution and Incumbency Certificate (Exhibit B).
- Good Standing: Certificates of good standing for the Borrower from its state of incorporation and from any other state in which the Borrower is required to qualify to conduct its business.
- Other Items: Any other items that the Lender reasonably requires.

Enforcing this agreement; miscellaneous

Illinois Law: This Agreement is governed by the internal laws of the State of Illinois.
Successors and Assigns: This Agreement is binding on the Borrower's and the Lender's successors and assignees. The Borrower agrees that it may not assign this Agreement, without the prior written consent of the lender.
Severability; Waivers: If any part of this Agreement is not enforceable, the rest of the Agreement may be enforced.
Expenses: The Borrower agrees to reimburse the Lender upon demand, whether or not any Advance is made under this Agreement, for all expenses and reasonable attorneys' fees, including any allocated costs of in?house counsel, incurred by the Lender; (a) enforcing the Borrower's obligations under this Agreement, or any other document delivered in connection with this Agreement; and (b) participating in any proceeding (whether instituted by the Lender, the Borrower or any other person and whether in bankruptcy or otherwise) or responding to any claim in any way relating to this Agreement, or any document delivered in connection with this Agreement. The Borrower further agrees to pay, and save the Lender harmless from all liability for, any stamp or other taxes which may be payable with respect to the execution or delivery of this Agreement, which obligations will survive any termination of this Agreement.
Multiple Borrowers: If two or more borrowers sign this Agreement, each will be individually obligated to repay the Lender in full, and all will be obligated together.
One Agreement: This Agreement and any related other agreements required by this Agreement, collectively:
- represent the sum of the understandings and agreements between the Lender and the Borrower concerning this credit; and
- replace any prior oral or written agreements between the Lender and the Borrower concerning this credit; and
- are intended by the Lender and the Borrower as the final, complete and exclusive statement of the terms agreed to by them. In the event of any conflict between this Agreement and any other agreements required by this Agreement, this Agreement will prevail.

Notices: All notices required under this Agreement shall be personally delivered or sent by e?mail or by first class mail, postage prepaid, to the addresses set forth below or to such other addresses as the Lender and the Borrower may specify from time to time in writing.
Headings: Article and paragraph headings are for reference only and shall not affect the interpretation or meaning of any provisions of this Agreement.
Counterparts: This Agreement may be executed in as many counterparts as necessary or convenient, and by the different parties on separate counterparts each of which, when so executed, shall be deemed an original but all such counterparts shall constitute but one and the same agreement.
Arbitration; Consent to Jurisdiction: To induce the Lender to accept this Agreement, the Borrower irrevocably agrees that ALL ACTIONS OR PROCEEDINGS IN ANY WAY ARISING OUT OF, FROM OR RELATED TO THIS AGREEMENT WILL BE SUBMITTED TO BINDING ARBITRATION THAT WILL BE CONDUCTED BY FEDNET, INC. AND THAT DECISIONS THEREFROM MAY BE ENFORCED BY STATE AND FEDERAL COURTS LOCATED IN THE CITY OF CHICAGO, ILLINOIS. SUCH ARBITRATION MAY, AT LENDER'S ELECTION, BE CONSOLIDATED WITH RELATED MATTERS BEING ARBITRATED. THE BORROWER HEREBY CONSENTS AND SUBMITS TO THE JURISDICTION OF ANY COURT LOCATED WITHIN CHICAGO, ILLINOIS, WAIVES PERSONAL SERVICE OF PROCESS AND AGREES THAT ALL SUCH SERVICE OF PROCESS MAY BE MADE BY

REGISTERED MAIL DIRECTED TO THE BORROWER AT THE ADDRESS STATED ABOVE AND SERVICE SO MADE WILL BE DEEMED TO BE COMPLETED UPON ACTUAL RECEIPT.

WAIVER OF RIGHTS: THE BORROWER AGREES THAT IT WILL NOT ASSERT ANY CLAIM AGAINST THE LENDER ON ANY THEORY OF LIABILITY FOR SPECIAL, INDIRECT, CONSEQUENTIAL, INCIDENTAL OR PUNITIVE DAMAGES.

If the foregoing is acceptable, please indicate the Borrower's agreement by signing a copy of this Agreement where indicated below.
Very truly yours,
B2BEXCHANGECREDIT,
A Delaware limited Liability Company

Secretary's certificate as to the adoption of corporate resolutions

The undersigned hereby certifies as follows:

1. The undersigned is the duly elected, qualified and acting Secretary of _____, a _____ corporation, and as such Secretary has custody and care of the corporate books and records of said corporation and has personal knowledge of the matters set forth herein.

2. At a special joint meeting of the Board of Directors and Shareholders of said corporation, called and held in accordance with applicable law and the provisions of the By?Laws of said corporation on _____, 20___, at which meeting all Directors and Shareholders were present and voting throughout, the following resolutions were unanimously adopted by the Board of Directors and the Shareholders of said corporation in accordance with the Articles of Incorporation and By?Laws of said corporation, as amended to date, and the laws of its state of incorporation:

- WHEREAS, this corporation or an affiliate hereof has applied to B2BExchangeCredit, LLC, a Delaware limited liability company ("B2B"), for an extension of credit on the terms and conditions set forth in that certain Demand Credit Agreement (the "Credit Agreement") by and between this corporation and B2B; copies of the Credit Agreement have been reviewed by the directors and shareholders of this corporation;
- NOW, THEREFORE, BE IT RESOLVED, that the negotiation of the Credit Agreement with B2B be and hereby is ratified, approved and confirmed in all respects, and that this corporation make, execute and deliver the Credit Agreement.
- FURTHER RESOLVED, that the President or any Vice President of this corporation, acting alone or together with the Secretary or any other officer of this corporation, be and hereby is, or hereby are, authorized and empowered, in the name and on behalf of said corporation, to execute and deliver the Credit Agreement and such instruments and documents as may be necessary or desirable in order to effect said extension of credit and the security therefore, containing such terms, conditions, covenants and warranties as the President or any Vice President in his or her sole discretion may approve, his or her execution and delivery thereof to constitute conclusive evidence of such approval.
- FURTHER RESOLVED, that the officers of this corporation be and each of them hereby is authorized and empowered to do and perform all acts and things that such officers deem advisable, necessary, expedient, convenient or proper in order to consummate fully all the transactions contemplated by these resolutions.

3. The foregoing resolutions are in full force and effect on the date hereof and have not been rescinded or modified in any manner whatsoever.

4. The following are the names and genuine specimen signatures of the duly elected, qualified and acting President and one of the Vice Presidents, respectively, of said corporation.

_____ (Name of President)

Appendix I

Set forth below are the policies that govern the trading and operations of The Exchange. Participant, in completing and executing the Participation Application and Agreement, agrees to be subject to and comply with the following Policies.
These Policies may be amended from time to time by electronic notification to all Participants. Each Participant will be given the opportunity to terminate its participation in The Exchange because of such amendment. Any Participant that does not elect to terminate its participation will be deemed to have accepted the amended terms.

Electronic Orders and Information

Any orders given by a Participant and any information furnished to a Participant electronically via the Internet shall be subject to the following terms and conditions:

- If an order has been placed through the Internet and a Participant has not received an accurate electronic confirmation of the order or of its execution in a timely manner, the Participant must immediately notify TPE.
- If Participant has received confirmation of an order that Participant did not place or any similar conflicting report, Participant must immediately notify TPE.
- Each Participant must immediately notify TPE if there is unauthorized use of its Password, ID or other security data.
- If a Participant fails to notify TPE in writing when any of the above conditions occur, neither TPE nor any of its employees, agents, affiliates, subsidiaries, or its parent, nor any third parties, can or will have any responsibility or liability to the Participant or to any other person whose claim may arise through the Participant for any claims with respect to the handling, mishandling, or loss of any order. TPE shall not be deemed to have received any order or similar instruction electronically transmitted by Participant until TPE has acknowledged to the Participant that the order or similar instruction has been actually received. Each Participant is fully responsibility for the monitoring of its Account.
- All orders entered on The Exchange shall be good-til-canceled which means that they will be open until they are either canceled or matched.

Trade Matching

Participants' orders are electronically matched by The Exchange based on price and time of entry, considering freight charges. Upon the matching of a buy and sell order, the transaction becomes a legally binding contract and The Exchange generates an electronic confirmation which is automatically sent to both the buy and sell Participants. TPE, in the absence of such additional delivery instructions, will initiate delivery following Participant's default instructions. If necessary, Participants are required to forward any additional delivery instructions to The Exchange immediately following the transaction either via phone at 800-967-9619, e-mail to Logistics@ThePlasticsExchange.com or system message.
Once a transaction becomes a legally binding contract, both parties to the contract must perform (Seller must deliver, Buyer must take delivery). Netting of transactions is not permitted. TPE reserves the right to mitigate disputed trades in a fair and equitable manner.

Transportation

Each Contract offered FOB shipping point includes the provision and cost of delivery. Delivery

shall be provided by TPE through its Transportation Partner(s). Because transportation is an integral part of each contract, Participant must provide shipping instructions to TPE upon application as a Participant. Neither the Transportation Partner nor TPE shall be liable for any consequential damages that occur in transit.

Right of Rejection

A Participant may only reject delivery of a Contract where the Product delivered does not meet the standardized contract specifications set forth in Appendix II of the Agreement as amended from time to time. The Participant must notify TPE immediately of such rejection. TPE, upon such notification, may dispatch an independent party to analyze the Product for compliance with the standardized contract specifications.

If the Product meets such specifications, Buyer must bear the cost of such independent analysis and must accept delivery.

If the Product does not meet such specifications, Seller must bear the cost of such independent analysis and the cost of return shipping. Further, the Seller must accept the returned Product and ship to Buyer a Product that meets the standardized contract specifications.

If Seller is unable to provide such Product, TPE will purchase a substitute Product at the current market price and Seller shall be responsible for all related costs, including any difference in price.

Failure to Deliver

If a Seller fails to deliver any order pursuant to the terms of the Contract, TPE may purchase the Product at the prevailing market price for the benefit of the Buyer and the Seller shall be responsible for all costs related to such failure, including any price difference. TPE may offset these fees and other payables against payment due to Seller.

Dispute Resolution

Each Participant must agree that it will use its best efforts to resolve any dispute that arises between the Participant and TPE and/or B2BExchangeCredit, LLC by participating in a meeting with the management of TPE. If the parties cannot come to an agreement through such meeting, the Participant must agree to submit to binding arbitration that will be conducted by FedNet, Inc[1]. Each Participant must further agree to submit to binding arbitration when a dispute is brought to arbitration that involves the contraparty to any corresponding trade of the Participant and/or B2BExchangeCredit, LLC.

Business Conduct

Participants must adhere to the following restrictions and requirements. For violating any of the following, TPE may, in its sole discretion, impose such sanctions against Participant as TPE may deem reasonable and appropriate, including but not limited to fine, suspension, termination or any such other sanction.

- Neither a Participant nor any employee of a Participant shall engage in any fraudulent act or to deceive, trick or engage in any scheme to defraud, in connection with or related to any trade on or other activity related to The Exchange. Orders of Contracts entered in The Exchange for the purpose of upsetting the equilibrium of the market and bringing about a condition of demoralization in which prices do not or will not reflect fair market values, are forbidden and any member of TPE and any employee of a member of TPE who makes or assists in entering such orders with knowledge of the purpose thereof, or who, with such knowledge shall be a party to assist in carrying out any plan or scheme for the entering of such orders shall be deemed guilty of

an act inconsistent with just and equitable principles of trade.

- Manipulation of the market is prohibited.
- It shall be an offense to violate any TPE Policy regulating the conduct or business of Participant, or any agreement made with TPE, or to engage in fraud, dishonorable or dishonest conduct, or in conduct or proceedings inconsistent with just and equitable principles of trade, or intentionally default on the delivery of any Contract.
- It shall be an offense against TPE to make a misstatement of material fact to TPE.
- Neither a Participant nor any employee of a Participant may use its right of access to The Exchange in any way which would tend to bring disrepute upon the Participant or The Exchange.

Disclaimer/Limitation of Liability

TPE shall not be responsible for the accuracy, completeness, or use of any information received by TPE from a Participant. TPE shall not be responsible for any damages caused by communications line failure, unauthorized access, theft, systems failure, and other occurrences beyond TPE's control. TPE shall not be responsible for any damages in the event that any order is not received by TPE. TPE shall have no liability if any or all of TPE's systems or the systems of any third party working with TPE "goes down" or otherwise fails to operate for any period of time. TPE is not liable for a Participant's inability to provide such access or for any delay in TPE's providing such access. To the extent that the System utilizes Internet or similar open telecommunication line services to transport data or communications, although TPE will take reasonable security precautions, TPE expressly disclaims any liability for interception of any such data or communications, and TPE shall not be responsible for and TPE makes no warranties regarding, the access, speed or availability of Internet or network services. The use and storage of any information, including without limitation, transaction activity, and any other information or orders available through a Participant's right of access to The Exchange ("Electronic Access") and all orders placed through the Electronic Access, is at each Participant's sole risk and responsibility. THE ELECTRONIC ACCESS IS PROVIDED AT EACH PARTICIPANT'S SOLE RISK ON AN "AS IS," "AS AVAILABLE" BASIS. NEITHER TPE NOR ANY OF ITS DIRECTORS, OFFICERS, EMPLOYEES, AGENTS, CONTRACTORS, AFFILIATES, INFORMATION PROVIDERS, LICENSORS, OR OTHER SUPPLIERS PROVIDING DATA, INFORMATION, ACCESS OR SOFTWARE (COLLECTIVELY, "THE TPE PARTIES") MAKES ANY REPRESENTATIONS OR WARRANTIES EXPRESS OR IMPLIED INCLUDING WITHOUT LIMITATION ANY WARRANTY THAT THE ELECTRONIC ACCESS WILL BE UNINTERRUPTED OR ERROR FREE OR MAKES ANY WARRANTIES INCLUDING IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE IN RESPECT OF THE ELECTRONIC ACCESS OR PRODUCTS OBTAINED FROM, THROUGH, OR IN CONNECTION WITH THE ELECTRONIC ACCESS; NOR DO ANY OF THE TPE PARTIES MAKE ANY WARRANTY AS TO THE RESULTS THAT MAY BE OBTAINED FROM THE USE OF SUCH ELECTRONIC ACCESS, OR AS TO THE TIMELINESS, SEQUENCE, ACCURACY, COMPLETENESS, RELIABILITY OR CONTENT OF ANY DATA, INFORMATION, ACCESS OR TRANSACTIONS PROVIDED THROUGH THE ELECTRONIC ACCESS; IN NO EVENT WILL ANY OF THE TPE PARTIES BE LIABLE FOR DIRECT, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES, RESULTING FROM ANY DEFECT IN, OR USE OF, OR INABILITY TO USE THE ELECTRONIC ACCESS (INCLUDING BUT NOT LIMITED TO LOST PROFITS, TRADING LOSSES OR DAMAGES THAT RESULT FROM LOSS OF THE USE OF THE

ELECTRONIC ACCESS, INCONVENIENCE OR DELAY), EVEN IF ANY OF THE TPE PARTIES HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES OR LOSSES.

Insolvency and Bankruptcy

If a Participant fails to perform its contracts or is near insolvency or becomes insolvent, such Participant shall promptly notify TPE of such fact. In such event, and even if such Participant fails to give notice to TPE, TPE may terminate or cancel the Participant's right of access if it deems it necessary.

Whenever an order for relief under the United States Bankruptcy Code (hereinafter, the "Bankruptcy Code") is entered for a Participant, Participants having Exchange Contracts with the bankrupt Participant may proceed to close the same on The Exchange in accordance with the provisions of this policy.

Emergencies

In the event of an Emergency, TPE, may place into immediate effect a temporary emergency policy which may remain in effect for up to thirty (30) Business Days and which may provide for, or may authorize TPE to undertake actions necessary or appropriate to meet the Emergency, including, but not limited to, such actions as:

- limiting trading to liquidation only, in whole or in part;
- extending the time of delivery;
- changing delivery points and/or the means of delivery;
- ordering the liquidation of contracts, the fixing of a settlement price or the reduction in positions;
- extending, limiting or changing hours of trading;
- suspending trading; or
- modifying or suspending any provision of the Policies of The Exchange.

If, in the judgment of TPE, the physical functions of The Exchange are, or are threatened to be, severely and adversely affected by a physical emergency, TPE shall have authority to take such action as it deems necessary or appropriate to deal with such physical emergency. Such authorized action shall include, but shall not be limited to, closing The Exchange, delaying the opening of trading in any one or more Contracts and/or suspending trading in or extending trading hours for any one or more Contracts; provided, however, that suspension of trading ordered pursuant to this paragraph shall not continue in effect for more than five (5) Business Days unless TPE approves extending such action.

In the event such action is taken, thereafter TPE may order restoration of trading on The Exchange or removal of any other restriction heretofore imposed pursuant to this paragraph, upon a determination by TPE that the physical emergency has sufficiently abated to permit the physical functions of The Exchange to continue in an orderly manner.

Force Majeure

If strike, fire, accident, ice, equipment malfunction or other act of God which might otherwise be described as "Force Majeure" results in the failure of seller to deliver on a Contract, The Exchange's obligation to make delivery will be extended daily until such condition of Force Majeure no longer exists.

Digest Chemical Groups Extend Deadline

Financial Times

December 27, 2000

Chemical groups extend deadline

Dow Chemical and Union Carbide, the US chemical groups, have agreed for the third time to extend their merger deadline, due to expire on Sunday.

The new deadline is March 31 next year, according to the companies' filing with the US Securities and Exchange Commission. The original deadline, twice extended, was August 2 this year.

The extension means the merger may not close until almost 20 months after the deal was announced in August 1999.

Then Dow said it would buy Union Carbide for about $9bn in stock, and $2.3bn in assumed debt. The deal would make Dow the world's second-largest chemical company behind DuPont. But it also makes it a dominant maker of polyethylene plastics, raising anti-trust issues with the Federal Trade Commission.

The stumbling block to approval with the FTC, some industry observers say, is a set of joint ventures and complex agreements with their technology patents for making the plastics used in items like refuse bags.

European Union regulators cleared the merger in May on the condition that it divested some businesses, including polyethylene technologies. Dow and Union Carbide competed against each other with joint ventures that had breakthrough technologies to make polyethylene and polypropylene two of the most widely used plastics. Observers say the commission wants to create a viable competitor in this industry, perhaps BP, through divestitures and patent-use agreements, but it has been difficult to negotiate.

Christopher Bowe, Chicago

Carlsberg stake

in glass reduced Carlsberg, the Copenhagen-based brewer, has cut its majority stake in Royal Scandinavia, the industrial arts company that owns some of the most prestigious porcelain and glassware brands in the Nordic region, in line with its bid to concentrate on the beverage sector.

The deal, with a local investor group led by Axcel, a Danish industrial investment

company, will give Carlsberg a total of DKr1.7bn ($211.7m) and reduce the brewer's holding to 28 per cent from 64 per cent.

A new holding company, Royal Scandinavia Holding, which will be 51 per cent owned by Axcel, will make a general purchase offer and then delist the company from the Copenhagen stock exchange.

Flemming Lindeloev, Carlsberg's chief executive, said he was looking forward to being able to concentrate on developing his company's brewing activities.

Earlier this year Carlsberg sold off its 43 per cent stake in Copenhagen's famed Tivoli amusement park.

Royal Scandinavia's upmarket brands include the Danish porcelain maker Royal Copenhagen and Orrefors and Kosta Boda, two of Sweden's best-known makers of quality glassware.

Clare MacCarthy, Copenhagen

Intertainment

slides by 50% Shares of Intertainment, a German film production and licensing company, on Friday dropped temporarily by 50 per cent to a record low of 4.82 per share.

The Neuer Markt-listed company announced on Thursday that it had filed a lawsuit against Franchise Pictures, the Los Angeles-based film production company, for wrongly budgeting its movies, which cost it about $75m. The Munich-based company pays a fixed percentage on the production costs for the marketing rights of a film.

Us: Merger of Dow Chemical, Union Carbide Still a Long Way Off

IndustrySuppliers.com

December 25, 2000

The long delayed merger between Union Carbide and Dow Chemical Co. has been deferred yet again with both companies agreeing not to exercise their right to close the deal before March 31. US based Dow Chemical Co. announced its intention of acquiring Union Carbide (UK) in August 1999 in a stock deal valued at $8.9 billion. The deal is pending, as it still has to satisfy federal antitrust regulators. Although the details hindering the deal are not known, market watchers are speculating that the Federal Trade Commission is looking at patents involved in the making of plastic and rubber.

Bayer Corp. Plastics Lab in Pittsburgh Area Perfects Materials to Create Cds

Knight Ridder/Tribune

Stephanie Franken , Pittsburgh Post-Gazette
December 23, 2000

Dec. 21--Christina Aguilera, clad in a sparkly halter top, can be brought home for the holidays at a cost of $13.99 from Amazon.com. Aguilera's compact disc, "My Kind of Christmas," features the Wexford teen-turned-pop star singing original songs, old carols such as "O Holy Night, " and, as her publicists tout, "Mel Torme's immortal 'The Christmas Song,' reinterpreted by Christina as an up-tempo dance track."

Production of the CD involved the work of a 70-piece orchestra, Grammy-award-winning songwriters, and a host of production people and back-up artists.

It also involved a bunch of Pittsburgh scientists in white lab coats and thick goggles, who take music so seriously that they refuse to listen to it, while they work.

The scientists, members of Bayer Corp.'s 6-person optical group, work in the climate-controlled optical media lab, where the only sounds are the humming of the massive machine that makes and tests CDs and the occasional voices of the scientists in consultation.

"We don't listen to music. If we do, we can't hear one another talk," said John J. O'Malley, Jr.

In Bayer's newly expanded, multimillion-dollar lab at its corporate headquarters in Robinson, the scientists devote their careers to perfecting the material that is used to make CDs as well as DVDs, the higher-quality discs that are expected to gain rapidly in the consumer market. They sell the material to a number of CD manufacturers, including companies that make CDs for RCA, Aguilera's record label.

Led by Ramesh Pisipati, optical disc industry manager, they work at the forefront of a long production process that ends with a crooning Christina.

All Bayer really does is sell a raw material that is used to make CDs -- but perfecting that single material requires the brainpower of several PhDs. The stuff is a polycarbonate, and Bayer's brand is called Makrolon. The material is made in plants throughout the world, but the Makrolon masterminds are local.

Earlier this month, Bayer AG announced plans to become the world's largest polycarbonate producer within the next five years, and it has invested $860 million toward this goal. The Pittsburgh-based lab will have a large role in delivering on this

promise by working to improve the quality of the product.

Makrolon resembles coarse grains of sugar, and it is sold in 1,600-pound bags. But the science of perfecting that material, to ensure that Frank Sinatra always sounds just like Frank, for example, requires Bayer to know everything there is to know about CDs and how they work.

"What we are trying to bring to the party is, 'How does the plastic behave and what can we do to improve it,' " said Pisipati. In order to make these discoveries, the scientists must make CDs from start-to-finish.

To make a CD, polycarbonate is heated in a cylinder, squirted out in CD-sized globs from an injection mold and shaped. Then, it is impressed with tiny bumps that are just over a millionth of a meter from one another. These bumps represent the digital code of the music itself, and they form a long spiral which would be 3.5 miles long if it were spread out.

After the polycarbonate, now "pitted" with digital code, has cooled, it is coated with a metal and then sprayed with acrylic.

The process is done in a room with a constant temperature of 70 degrees and 50 percent humidity.

"It's a great place to be during allergy season," said O'Malley.

Inside that room, the machine that makes CDs contains "hyperfiltered" air with no more than 100 dust particles in a cubic foot. Both CDs and DVDs are read by a laser, through the polycarbonate -- so the plastic must be clear. A dust speck is like a boulder on a CD that isn't yet finished.

The Bayer lab also is newly equipped to do research and development for DVDs -- digital versatile discs. DVDs, which are used to store movies as well as music, are made through a process that is similar to that of making CDs. But DVDs are thinner than CDs, and they are double-sided to hold more data. They also have tinier pits in the plastic that are even closer together -- and more pits means higher sound quality.

One mission for the scientists is to ensure the material melts down and hardens as efficiently and predictably as possible, so nearly every CD turns out perfectly.

"If the viscosity of the material varies, you see that in the quality of the disc," said Pisipati. And every CD must be perfect, or it can't be sold.

Perfection rates can be as high as 98 percent at CD manufacturing plants, meaning only two CDs out of 100 will be pitched. Contraptions such with names such as "Dr. Schenk Inspector" and "Prometeus" test the properties of CDs and DVDs that are far

too tiny for the human eye. Every CD sold to consumers is tested individually.

But this perfection is cheap for record labels that sell finished CDs, such as RCA Records, Aguilera's label.

"It is common knowledge that the cost of making a CD -- all ready to go and lacking only a bar code -- is about 75 cents," said Pisipati.

That price refers to CDs that are mass-produced. For a more moderate quantity, manufacturing costs are roughly two dollars per CD, estimated Holly Wilson, market manager for Polystyrene durables at Nova Chemicals Corp. in Moon.

Nova, also a Pittsburgh-based company, makes the material -- crystal polystyrene -- that is used to made CD cases, known as jewel boxes.

Nova gets 55 cents per pound for its crystal polystyrene, which its customers in turn make into six or seven jewel boxes that sell, wholesale, for about 15 to 20 cents each.

So the stuff that is used to make CDs -- and the cases that hold them -- costs very little. But that low cost doesn't include payment of royalties to the artist, the songwriters, the label, and other musicians and producers who recorded the music that winds up on a CD or DVD.

And for a big-label artist who uses copyright-protected material, paying all of those people raises the price to at least $11 or $12.

Great Lakes Updates Fourth Quarter Outlook

PR Newswire

December 21, 2000

INDIANAPOLIS, Dec 21, 2000 /PRNewswire via COMTEX/ -- Great Lakes Chemical Corporation (NYSE: GLK) today announced it expects fourth quarter earnings to be below the company's previous expectations, primarily due to weaker demand in certain end markets. The company now expects earnings for the fourth quarter to be in the range of $.39 to $.44 per share. These results include the benefit of a lower effective tax rate associated with the non-taxable gain resulting from the initial public offering of the company's oil service subsidiary, OSCA, Inc.

Excluding the benefit of the lower effective tax rate, the company's underlying earnings for the fourth quarter are expected to be in the range of $.35 to $.40 per share.

The company expects fourth quarter sales to grow 4 to 5% compared to the same period last year. Driving this growth, the gains registered by Water Treatment and Energy Services and Products (OSCA) were offset in large part by sharply lower sales in the Polymer Additives business.

Mark Bulriss, Great Lakes' Chairman and Chief Executive Officer commented, "Quarterly earnings will be affected by sharply lower income reported by our Polymer Additives business. This business is experiencing lower than expected sales due to a sudden slowdown in customer demand. Fourth quarter volume growth for this business will be down compared to the same period last year. In addition to the impact from softer demand, the recent surge in energy costs compounded the deterioration in profitability we expect to see this quarter for Polymer Additives."

He added, "On a more positive note, our three remaining business units continue to be bright spots. We anticipate that all three will finish the year strongly. Water Treatment and Performance Chemicals will generate higher operating income in 2000 than ever before. OSCA is on track to post healthy gains in sales and profitability in the quarter driven by the continued increase in drilling activity throughout the Gulf of Mexico."

Bulriss concluded, "The difficult business conditions we face today pose a serious challenge in the near-term. It underscores the importance for continuous aggressive productivity and growth programs. We remain focused on what is essential to drive shareholder value over the long-term."

The company will announce final results for its fourth quarter and full- year financial performance on Wednesday, January 24, 2001, after the close of the New

York Stock Exchange. A conference call will take place the following morning at 11:00 am (EST). This call will be broadcast live over the Internet, with access provided through the Company's home page at www.greatlakeschem.com .

After December 22, 2000 Great Lakes Chemical will observe a "quiet period" which will extend until the January 24th earnings release. During the quiet period, Great Lakes representatives will be unable to comment about Great Lakes' expected financial results for the quarter.

This report contains forward-looking statements involving risks and uncertainties that affect the company's operations as discussed in Great Lakes Chemical Corporation's Annual Report on Form 10-K and OSCA's Registration Statement on Form S-1 and final prospectus filed with the Securities and Exchange Commission. Accordingly, there is no assurance the company's expectations will be realized.

Great Lakes Chemical Corporation is the world's leading producer of various specialty chemicals for such applications as flame retardants, polymer stabilizers, fire extinguishants, water treatment, as well as a growing line of performance and fine chemicals for the life sciences industry. The stock of the company is traded on the New York Stock Exchange.

DSM to merge 3 business units into DSM Petrochemicals

AFX News Limited

December 22, 2000

HEERLEN, the Netherlands (AFX) - DSM NV said that with effect from Jan 1, it will merge its Polyethylenes, Polypropylenes and Hydrocarbons business units into a new, single business groups, DSM Petrochemicals.

The organisational change fits with DSM's "Vision 2005" strategy, as part of which the company will gradually withdraw from petrochemicals by merging this business with "a global partner," DSM said.

It noted the setting up of the separate DSM Petrochemicals business groups is "the first step towards that goal."

A. Schulman Reduces Earnings Estimates for Its First Fiscal Quarter Ending November 30, 2000

Business Wire

December 21, 2000

AKRON, Ohio, Dec 21, 2000 (BUSINESS WIRE) -- A. Schulman Inc. (Nasdaq:SHLM) announced today that net income per share for its first quarter of fiscal 2001 ending November 30, 2000 will be approximately 50 percent below the First Call consensus estimate of $.25 per share. The expected earnings exclude a first quarter charge relating to the previously announced closure of its manufacturing facility in Akron.

Net income for last year's first quarter was $11,942,000 or $.38 per share, including $.02 per share of earnings from the settlement of an insurance claim.

In its October 20 release, the Company had indicated that earnings for the 2001 first fiscal quarter would be off at least 25 percent from last year's results. Since that time, volume has weakened, especially in the Company's automotive business. Conditions in Europe are also off, primarily in Germany and the United Kingdom. Profit margins are lower due to higher material costs and competitive price pressures. Although there has been some recent improvement in the value of the Euro, it is approximately 16 percent lower than last year and will have an adverse impact on earnings.

"Business is softer than originally anticipated and customers appear to be reducing inventories," said Terry L. Haines, president and chief executive officer. "Margins are lower than last year and it remains difficult to offset increased material costs with higher sales prices due to competitive conditions in the marketplace."

Haines added, "In light of the difficult economic environment, we have implemented a number of actions to reduce costs. We expect to realize $15 million in annualized cost reductions resulting from the closing of the Akron manufacturing facility, the shutdown of certain other manufacturing lines, and the closing of a number of sales offices. Accordingly, we anticipate some operating improvements in the latter part of our second quarter ending February 28, 2001."

A. Schulman will release its fiscal 2001 first-quarter results on January 11, 2001.

About A. Schulman Inc.

Headquartered in Akron, Ohio, A. Schulman is a leading international supplier of high-performance plastic compounds and resins. These materials are used in a variety of consumer, industrial, automotive and packaging applications. The Company employs about 2,500 people and has 14 manufacturing facilities in North America, Europe, Mexico and the Asia-Pacific region. Revenues for the fiscal year ended August 31, 2000, were approximately $1 billion. Additional information about A. Schulman can be found on the World Wide Web at www.aschulman.com.

Statements in this release which are not historical facts are forward looking statements which involve risks and uncertainties and actual events or results could differ materially from those expressed or implied in this release. These "forward-looking statements" are based on currently available information. They are also inherently uncertain, and investors must recognize that events could turn out to be significantly different from what was expected. Examples of such uncertainties include, but are not limited to, the following:

-- Worldwide and regional economic, business and political conditions

-- Fluctuations in the value of the currencies in major areas where the Company operates, i.e., the U.S. dollar, the Euro, U.K. pound sterling, Canadian dollar, Mexican peso and Indonesian rupiah

-- Fluctuations in the prices of plastic resins and other raw materials

-- Changes in customer demand and requirements

Formosa Plastics Plans Fight Osha Allegations

Chemical Market Reporter

Anonymous
December 21, 2000

FORMOSA PLASTICS Corporation USA plans to fight allegations by the Occupational Safety and Health Administration (OSHA) that the company violated federal safety and health standards at its Point Comfort, Tex., plant.

On November 22, OSHA notified Formosa Plastics that it was citing the company for nine alleged safety and health violations. OSHA Proposed penalties totaling $114,000, based on an inspection conducted earlier in the year.

OSHA's investigation began in May when an employee was severely injured in a fire at the Formosa Plastics plant. OSHA's inspection of the complex resulted in charges of one willful, six serious and two repeat violations.

A Formosa Plastics spokeswoman says the company plans to contest the agency's findings and proposed penalties before the independent Occupational Safety and Health Review Commission.

OSHA is charging Formosa Plastics with one willful violation "for operating procedures that were inadequately written." A willful violation is defined as one committed with an intentional disregard of or plain indifference to OSHA requirements.

OSHA said the six alleged serious violations were for:

Failing to ensure that all affected employees such as process operators were aware that the process hazards analysis for a polypropylene unit existed and were available at the facility;

Failing to properly handle and clean up spills of combustible polypropylene and also failing to develop written procedures to address the scheduling, inspection and testing of process valves as part of a comprehensive maintenance program.

Dow Projects Growth, Outlines Strategies

Chemical Market Reporter

Anonymous
December 21, 2000

Dow CHEMICAL expects sales from its Dow Plastics unit to surpass $11 billion by the end of the year, versus $9.6 billion in 1999, according to chairman and CEO Michael D. Parker. Mr. Parker, who spoke at a press briefing in New York, noted that more than half of the 15 percent growth stems from volume growth.

Mr. Parker says 2001 could be a challenging year for Dow Plastics because of a softening global GDP and continued high hydrocarbon and energy costs. But volume growth is expected to be similar to 2000.

Dow Plastics' polyolefins and elastomers business recently completed the construction of two major capacity additions, including a 550-million-pound polypropylene plant in Freeport, Tex., and a new polyethylene train in Argentina.

"We now have the capability to make and market our solution polyethylene products on four continents," says Romeo Kreinberg, business group president for Dow's polyolefins and elastomers businesses. In addition, Dow can run its Insite technology at all of its polyethylene plants, according to Mr. Kreinberg.

Dow's polyolefins and elastomers businesses are well-positioned for global growth, Mr. Kreinberg says. He cites Dow's strong customer base, powerful technology, high operating rates, broad product portfolio and drive for product efficiency.

Dow's polystyrene business also completed several expansions recently. At the company's Hanging Rock, Ohio, facility, Dow added 25,000 metric tons. In Guaruja, Brazil, Dow is upping its capacity from 110,000 metric tons to 200,000. In October, Dow broke ground for a 120,000-metric-ton plant in Zhangjiagang, China.

On a company-wide basis, Dow plans to grow its earnings per share (EPS) by 10 percent from peak to peak and trough to trough. Dow will expand its established businesses, complete value-adding mergers, and generate new business growth. If successful, Dow will be a $60 billion company by 2010, according to Mr. Parker.

GE Plastics Concludes Acquisition of Commercial Plastics; Greg Adams Named Commercial Plastic President

Business Wire

December 21, 2000

PITTSFIELD, Mass., Dec 21, 2000 (BUSINESS WIRE) -- GE Plastics, an operating unit of General Electric Company (NYSE:GE), announced today that it has completed its acquisition of Commercial Plastics & Supply Company of Boca Raton, Fla., a global leader in the marketing, fabricating, and distribution of high performance plastic sheet, rod, tube and film products.

Not included were Nytef Plastics, an extruder of engineering plastics rod and plate; Comco Plastics, a custom fabricator of plastics materials; and Transparent Protection Systems, Inc. (TPS), a manufacturer of hurricane and storm protection systems. The price and other terms of the acquisition were not disclosed.

GE Plastics also announced that it has named Greg Adams as president of Commercial Plastics. Adams also heads Cadillac Plastic, which GE acquired earlier this year. The former President and CEO of Commercial, M.R. French, Jr., will assist with the transition of the business to GE, reporting to Adams as an executive advisor. Separately, French will continue to head the three business operations not included in this acquisition, Nytef Plastics, Comco Plastics, and TPS.

GE Plastics is a leading global manufacturer of high performance engineering thermoplastics, with manufacturing facilities and technology and innovation centers around the world. GE Plastics supplies a spectrum of high performance resins and application development resources to help its customers achieve a competitive edge through performance and design differentiation. Sales for GE Plastics in 1999 were $6.9 billion. Visit us at http://www.geplastics.com

Intertape Polymer Group Inc. Expects Lower Than Anticipated Fourth Quarter Revenues And Earnings

Business Wire

December 20, 2000

MONTREAL, Dec 20, 2000 (BUSINESS WIRE) -- Intertape Polymer Group Inc.(TSE:ITP.) (NYSE:ITP) today announced it expects that fourth quarter revenues are likely to be flat versus third quarter 2000 which were reported as $166.4MM.

This revenue outlook differs from previous forecasts.

Melbourne F. Yull, Intertape's Chairman and Chief Executive Officer stated "The slowdown in the North American economy has resulted in wavering market confidence and the entire industry has been affected by that overall softness. We are not immune to this slowdown which has started to impact our growth in the 2nd half of December. IPG has successfully completed the integration of the United Tape acquisition, and the opening of its Western Regional Distribution Center (RDC) in Los Angeles, California on December 7, 2000. The Atlanta, Georgia RDC is well on target for a February 2001 inauguration. These events will contribute to the erosion of fourth quarter revenue and earnings."

Mr. Yull also stated "Looking forward, the RDC Program coincides with the recent launch of Intertape's new Business to Business Beta sites. B2B will provide our customers with "real time" access to information on-line, such as order status and order tracking. These two programs will further reduce transaction costs, making IPG a more value-added supplier."

According to Mr. Andrew M. Archibald, C.A., "We are unable to avoid the current industry-wide downturn. Of course, we are disappointed with the results we are now experiencing. We anticipate that the slower economy and challenges in the packaging industry will continue into the first half of 2001. In light of this, we are taking further actions to reduce the Company's expense structure, and have implemented additional plans and programs to move the Company forward next year. In that regard, we expect 2001 revenues to increase approximately 20.0% to $800MM.

The Company is reducing its 2001 EPS estimate to a range between $1.40 and $1.60."

The Company will hold a conference call December 21, 2000 at 10:30 a.m. EST to discuss its business performance. The conference call can be accessed by dialing 1-888-313-1671, mention access code 17378304. A replay of the call will be available until December 28, 2000 at 12:30 p.m. EST. To access the playback, dial

1-800-633-8284 for North America domestic and 1-858-812-6440 for International. Mention access code 17378304.

Intertape Polymer Group Inc. develops, manufactures and markets a wide variety of specialized polyolefin plastic and paper based packaging products and systems for industrial and retail use. The Company is based in Montreal, Quebec and Sarasota, Florida with manufacturing facilities in twenty North American and European locations.

This release contains statements that are forward-looking within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements involve known and unknown risks and uncertainties, which may cause the Company's actual results in future periods to differ materially from forecasted results or forward-looking statements. Those risks and uncertainties include, but are not limited to:

- risks associated with pricing, volume and continued strength of markets where the Company's products are sold, and the timing and acceptance of new product offerings.

- actions of competitors as are described in the Company's filings with the Securities and Exchange Commission (SEC) over the last twelve months.

- the Company's ability to successfully integrate the operations and information systems of acquired companies with its existing operations, and information system, including risks and uncertainties relating to its ability to achieve projected earnings estimates, achieve administrative and operating cost savings and anticipate synergies.

- the effect of competition and raw material pricing on the Company's ability to maintain margins on existing or acquired operations.

The Company does not undertake to publicly update or revise its forward-looking statements even if experience or future changes make it clear that any projected results expressed or implied therein will not be realized.

(stated in U.S. dollars) (reported using Cdn GAAP other than as noted)

Three Cities Vie As East Greenbush, N.Y., Plastics Firm Looks for Lab Sites

Knight Ridder/Tribune

Kenneth Aaron , Times Union, Albany, N.Y.
December 21, 2000

Dec. 20--John Ciovacco expects that his company, Cyclics Corp., will make 50 million pounds of plastic a year by 2005. Now he only needs to find a new home.

Plenty of people are hoping to finish his search.

Ciovacco is working politicians and talking to officials in Rensselaer, Schenectady and Watervliet who want to roll out the welcome mat for Cyclics.

The 18-person company currently is running out of space at its two company locations -- the University at Albany's East Campus in East Greenbush, where it has about 4,000 square feet, and in Clifton Park, where it has 2,000. In a month, though, he's expecting to decide on where to move.

Recruiters want businesses like Cyclics -- high-tech companies on steep growth tracks that need lots of scientists (and pay scientist salaries -- about $60,000 a year, in this case).

Ciovacco, who lives in Schenectady and went to Union College, wants to stay in the Capital Region. He wants at least 20,000 square feet and room to double or triple that. He wants to open by the second or third quarter of 2001. And he also wants some help in outfitting space for a laboratory -- a $1.5 million endeavor -- and in buying $2 million to $3 million worth of equipment.

Nobody has stepped forward with a firm offer yet, but there is interest in attracting a company that plans to double its 18-person staff by next year and to grow to 250 workers by 2005.

Here are some of the pitches Ciovacco is considering:

-- "I think they're a great fit and I think we've got a great spot for them," said Harry Apkarian, vice chairman of the Metroplex Development Authority in Schenectady.

The place Apkarian has in mind, a one-time Schenectady International building, is already outfitted with laboratories.

Another site in Schenectady, at the Nott Street Industrial Park, holds promise, too, Ciovacco said.

-- In Watervliet, Ciovacco has looked at the Arsenal. That location would come with the services of Benet Laboratories at his disposal -- "the most sophisticated laboratory in metallurgical sciences in the country," said Tony Gaetano, president of the Arsenal Business and Technology Partnership. "They're the best at what they do."

Gaetano has been trying to bring private companies to the arsenal for months now, though his policy is to not speak of any ongoing negotiations. His first private tenant, copper-foil maker Oak-Mitsui Inc. of Hoosick Falls, will rely on Benet. And Ciovacco was intrigued by working with the laboratory.

Not to mention that the arsenal is located in an Empire Development Zone, which opens the door to significant incentives and other tax breaks.

-- But he hasn't ruled out moving into a brand-new building that Broadway Development Group of Rensselaer would build near his current headquarters, a 57,000-square-foot plant.

The communities in the running for Cyclics are not gearing up for a no-holds-barred scrap to lure the company, from the sounds of things.

"These guys have not tried to start a bidding war," said George Robertson, chairman of Schenectady Economic Development Corp. "And good companies don't."

Ciovacco, for his part, said he expects whatever deal results will be similar to anything he could win by heading south. Not that he wants to.

Of course, the company's impending relocation is shaping up at the same time that General Electric Co.'s Power Systems headquarters appears poised to move to Atlanta.

The reason, said new Power Systems head John Rice, is that recruitment and retention is easier down there.

But that's not what Ciovacco has found. The airport here, he said, is so much more pleasant to navigate than in a really big city. "There's also a lot of technology that's specific to our business right in this area," he said, from GE Plastics' headquarters in Pittsfield, Mass., to GE's research and development labs in Niskayuna, to the local colleges that are a source of talent.

The plastic that Cyclics hopes to make will churn out of a factory somewhere else. New York is a tough state to build a chemical factory in, Ciovacco said.

Its new building will be home to research and development, customer service and other functions.

The company's plastics are based off 48 patents bought from GE last year. The resins, when melted down, are easily moldable and readily combined with other strengthening

materials, such as carbon fiber.

(A) Amount does not reflect reimbursement from Bayer related to PO-11 joint venture.

(B) Amounts shown for joint ventures are on 100% basis.

The increase in the capital budget for Intermediate Chemicals and Derivatives primarily reflects Lyondell's 50 percent share of capital for the PO-11 joint venture with Bayer AG. As previously announced, Lyondell and Bayer have formed a manufacturing joint venture for the world-scale propylene oxide/styrene monomer facility, which is currently under construction in the Netherlands. Lyondell and Bayer will each have a 50 percent interest in the joint venture. Under the terms of the agreement, Bayer has purchased its interest in PO-11 from Lyondell with a cash reimbursement of approximately $50 million, or 50 percent of the project costs incurred by Lyondell for PO-11 to date. Future costs will be shared on an equal basis by both companies.

Equistar's capital spending in 2001 primarily will target projects to improve operational excellence and plant efficiencies, as well as high return business opportunity projects.

Capital expenditures in 2001 at LCR will increase from 2000 because of higher spending on regulatory compliance, maintenance and cost reduction projects.

Lyondell Chemical Company (www.lyondell.com), with headquarters in Houston, Texas, is the world's largest producer of propylene oxide (PO); the world's number two supplier of TDI (toluene diisocyanate); a leading producer of propylene glycol; a leading producer of other PO derivatives such as BDO (butanediol) and PGE (propylene glycol ether); and a producer of styrene monomer and MTBE as co-products of PO production. Through its 41% interest in Equistar Chemicals, LP, Lyondell also is one of the largest producers of ethylene, propylene and polyethylene in North America and a leading producer of polypropylene, ethylene oxide, ethylene glycol, high value-added specialty polymers and polymeric powder. Through its 58.75% interest in LYONDELL-CITGO Refining LP, Lyondell is one of the largest refiners in the United States, processing extra heavy Venezuelan crude oil to produce gasoline, low sulfur diesel and jet fuel. Lyondell is the third largest methanol producer in the U.S., through its 75% interest in Lyondell Methanol

Company, L.P.

Pechiney unit wins patent infringment recommendation against Continental PET

AFX News Limited

December 19, 2000

CHICAGO (AFX) - Pechiney Plastic Packaging Inc said it won a key recommendation against Continental PET Technologies Inc saying Continental PET has infringed Pechiney patents in making bottles for HR Heinz Co ketchup and Miller beer.

Pechiney said the recommendation in a lawsuit begun in 1990 involved patents for plastic container coinjection technology used primarily for products such as ketchup and beer.

Under the District Court's procedures, Continental PET has 30 days to appeal the recommendation.

If the recommendation is confirmed, "Pechiney believes that it will be able to establish its entitlement to significant damages and other relief from CPT, based upon the large number of allegedly infringing products manufactured by CPT for almost a decade," it said.

Solutia to Cut 700-800 Jobs, Miss 4th-Qtr Projections (Update3)

Bloomberg

Mark Johnson
December 18, 2000

St. Louis, Dec. 18 (Bloomberg) -- Solutia Inc. will eliminate as many as 800 jobs, or as much as 7.5 percent of its workforce, as the specialty chemical maker struggles with slowing economies in the U.S. and Europe and rising natural gas prices.

The company will cut 700 to 800 full-time jobs and reduce its senior management, which includes vice presidents and general managers, by 20 percent, spokeswoman Liesl Livingston said. The St. Louis-based company also said fourth-quarter earnings will miss expectations.

The higher cost of natural gas, which is used by Solutia both as a raw material and an energy source, has hurt earnings, along with a slowdown in the U.S. and European economies, the company said. Solutia reported in October that third-quarter profit fell 59 percent from a year earlier.

``Certainly they're getting heavily hurt by higher natural gas prices," said Jeffrey Peck, an analyst with Bear, Stearns & Co. ``Lowering their headcount is something they probably need to do. Will it make up for the rising cost of energy? No way."

Natural gas is the company's main energy source and prices have more than tripled in the past year. Natural gas also is a component in the production of ammonia, used in many of the company's products.

The shares of Solutia rose 6 cents to $10.94 in New York Stock Exchange trading. They have fallen 29 percent this year. The company makes Wear-Dated brand nylon carpet fibers as well as chemicals, resins and plastics used to make detergents, paints, tires and other products.

The company also will cut the number of contractors it uses by 400.

The job cuts are expected to save the company about $100 million pretax annually. Decisions on where the reductions will occur will be made in the first quarter, Livingston said. The company has about 10,600 employees.

Solutia now expects to earn about 12 cents a share in the fourth quarter, before charges of $90 million to $100 million. It was expected to earn 17 cents a share, the average estimate of nine analysts polled by First Call/Thomson Financial.

Eastman CEO Says Units' Sales Unlikely in 2001: Bloomberg Forum

Bloomberg

Brett Chase
December 18, 2000

Kingsport, Tennessee, Dec. 18 (Bloomberg) -- Eastman Chemical Co., the largest maker of plastics used in soda bottles and fibers used in cigarette filters, wants out of those businesses, though a 2001 sale is unlikely, its chief executive said.

Earnest Deavenport, chairman and CEO of Kingsport, Tennessee- based Eastman, said the chemical company wants to sell or cut back its polyethylene terephthalate, or PET, business, which makes plastics used in bottles and other containers, and its acetate tow unit, which makes fibers for cigarette filters.

Eastman has said it wants to buy faster-growing specialty plastics and chemicals businesses. Investors are anxious for Eastman to shed all or part of its slow-growing lines, though Deavenport said an exit isn't likely next year. That, he said, is good news for now, since both the cigarette-filter and PET units are expected to contribute substantially to earnings next year.

PET is ``going to be a very good business," Deavenport told the Bloomberg Forum. ``It's growing at greater than 10 percent. The margins are improving on the business. We think the up cycle could last another three years."

Eastman is forecast to earn $3.90 a share in 2000 and $4.19 in 2001, the average estimates of analysts polled by First Call/Thomson Financial.

Deavenport declined to say when Eastman, spun off by Eastman Kodak Co. in 1994, would shed its slow-growth businesses, which include a smaller polyethylene business that makes films and plastic sheets.

``Obviously you can't wait till you get to the peak of the cycle and then say, `Well, I don't want this business anymore.' So you have to lay plans to do something well ahead of that time," he said.

Market Share

Finding a buyer for either the cigarette-filter or PET plastics business could be difficult because a sale would give Eastman's competitors too much control of the global market. Its biggest rivals are KoSa BV of Houston and Nan Ya Plastic Corp.

of Taiwan in PET plastics and Celanese AG of Germany in acetate tow.

One option, Deavenport said, is some sort of joint venture that would leave Eastman as a partial owner while reducing its exposure to down cycles. One such period hurt Eastman's earnings in 1999, when the company fired 1,200 workers, or 7.5 percent of its workforce.

High Growth

Eastman would rather be known for creating coatings, adhesives and other products that are considered higher-growth areas than commodity plastics and chemicals.

Eastman acquired McWhorter Technologies Inc. of Carpentersville, Illinois, in July for cash and assumed debt of about $355 million to build its coatings and adhesives business.

Its polyethylene business will likely be sold because Eastman is too small a player. A fine-chemicals unit, which makes a variety of products such as the non-chlorine bleach in laundry detergent, is being auctioned, and an agreement to sell could be struck by the first quarter, Eastman Chief Financial Officer James Rogers said.

Eastman will continue to look for acquisitions of as much as $500 million in specialty plastics and chemicals, Deavenport said.

``You can count on us being very opportunistic," Deavenport said.

Eastman, which was created in 1920 to make photographic chemicals for Eastman Kodak, the world's biggest photography company, isn't interested in a merger with a like-sized competitor, Deavenport said.

Eastman, like other chemical makers, faces problems as the cost of materials rises and the economy slows. Oil prices have risen about 16 percent this year, while natural gas prices have nearly tripled. Oil and gas affect about a third of Eastman's production, Deavenport said.

PET plastics are unlikely to get hit hard in a soft economy because bottled soft-drink sales are generally not significantly affected, Deavenport said.

Riverside, Calif., Approves Bonds for Sayreville, N.J.-Based Plastics Firm

Knight Ridder/Tribune

Jared O. Wadley , The Press-Enterprise, Riverside, Calif.
December 20, 2000

Dec. 20--RIVERSIDE, Calif.--Plastics manufacturer Sabert Corp. received approval Tuesday from the city of Riverside to receive up to $8 million in bonds, completing the first step toward constructing a new plant in the city next year.

The Sayreville, N.J.-based company wants to build the plant on 16.6 acres on the southeast corner of Palmyrita Avenue and Northgate Street in Hunter Business Park. The plant will be developed in three phases, totaling 325,000 square feet and creating 300 jobs.

On Tuesday, the Riverside City Council, sitting as the city's Industrial Development Authority, unanimously approved a motion for Sabert to receive bonds not exceeding $8 million. A public hearing is set for Jan. 9, 2001.

Before the city can issue the bonds, they must be approved by the state, said Gary Ziznewski, Sabert vice president of finance and logistics.

Two state agencies will review the bonds -- the California Debt Limit Allocation Committee and the California Industrial Development Financing Advisory Commission. Voting from both agencies should be completed by February, said Kevin Palmer, director of Riverside's economic development department.

Palmer said the financing team has not determined the length of the loan, but it's typically 15 to 20 years. The loan is guaranteed through a letter of credit from the borrower, so the city is not responsible for any loan defaults, he said.

The company might begin construction on the new facility during the second quarter 2001. First-phase work should be completed in six to nine months, Palmer said.

Founded in 1982, Sabert makes plastic platters, bowls, plates, containers lids and utensils. The company also recycles plastic.

By opening a Riverside plant, it eases the capacity constraints at Sabert's corporate headquarters and allows for better service to West Coast customers, officials said.

Palmer said Sabert picked the Hunter Park site for it's rail accessibility and location in an enterprise zone. Also, the company could better control its costs because Riverside operates its own public utility, he said.

The first phase -- which involves a 120,000-square-foot building with office, manufacturing and warehouse space -- will employ 35 people.

Phase Two, built at least two years later, will add 102,000 square feet. This building will hold finished goods packaging and warehousing, while the first phase building will specialize in manufacturing.

The third phase, built by 2005, adds another 103,000 square feet.

Auto Supplier Helps Boost GM Diversity Minority-Owned Firm Lands Five-Year, $1.2 Billion Contract to Make Fuel Tanks for Automaker

The Detroit News

Tenisha Mercer The Detroit News
December 20, 2000

DETROIT -- The 20 pounds of black plastic that sits on Chuck Young's desk is not ordinary plastic. It's the beginning of a plastic fuel tank that Young's employer, Vitec LLC, manufactures.

Vitec makes 800,000 fuel tanks annually for General Motors Corp., Ford Motor Company and DaimlerChrysler AG. Housed in a 144,000- square-foot plant on Clark in Detroit's Empowerment Zone, the auto supplier is a joint venture between Greenwood Holdings and TI Group Automotive Suppliers.

Greenwood Holdings is owned by a group of minority investors, including industrial mogul William Pickard, owner of Regal Plastics in Roseville and chairman of Vitec. Greenwood owns 52.5 percent of Vitec. TI Group is a London-based auto supplier that manufactures fuel tanks and fuel storage delivery systems and owns the rest of Vitec.

"The Big Three recognize that, in order to sell cars to more minorities, they need to employ more minority (companies)," said Young, chief financial officer for Vitec.

Young points to Vitec's diverse executive staff with pride. At least 80 percent of the company's executive management is African American or Hispanic, Young said.

"Minorities play a huge role in the company," Young said. "We don't just talk diversity."

Vitec, which has 250 employees and earned $150 million in sales last year, just landed a five-year, $1.2-billion contract to supply fuel tanks for General Motors, its largest client. Begun in 1997, the company manufactures fuel tanks for the Pontiac Grand Prix, Chevrolet Monte Carlo, Buick Regal and Buick Century, Young said.

Vitec's business with GM is part of the automaker's goal to increase spending with minority suppliers. Last year, GM spent 5 percent -- or $3.3 billion -- of its purchases with minority suppliers and subcontractors, said J. David Allen, director of the supplier diversity group at GM.

GM plans to spend 5.5 percent of its purchases with minority suppliers this year, and Allen said he expects the company to exceed that goal. GM awarded Vitec a

five-year, $700-million contract that runs from 1999 to 2004. In June, Vitec was awarded an additional five- year, $500-million contract beginning in 2004.

Before Vitec, GM had no minority suppliers manufacturing fuel tanks, Allen said.

"We're very proud of Vitec," Allen said. "We think very highly of the company. We want to make sure minorities participate in all phases of our supplier process."

Still, challenges are ahead for Vitec, which, like other auto suppliers, is battling consolidation, shrinking market share and increased technology costs.

"Managing growth is a challenge," Young said. "We don't want to grow too quickly, but we don't want to be stagnant."

For now, ideas about expansion loom. The company has options to buy four additional acres on its property and plans to add four blow molding machines, which manufacture fuel tanks, to its three machines, Young said.

Jury Hits Phillips in Blast Trial

Tulsa World

AP
December 19, 2000

HOUSTON (AP) -- Though a jury awarded about $117 million Monday to the family members of a worker killed in the June 1999 explosion at a Phillips Petroleum Co. chemical plant, Texas law will allow them to receive only a fraction of the money if the judgment is upheld.

A Harris County jury ordered Bartlesville-based Phillips to pay $7.85 million in damages and $110 million in punitive damages. The company quickly promised an appeal.

However, state law limits punitive damages, and plaintiffs' attorney John Eddie Williams said the end sum could be much less.

"It looks like it could take away over $100 million of the punitive," said Williams, who represents the widow of Juan Martinez Jr., one of two workers killed in the blast.

Company attorney Reagan Simpson estimates the punitive award will shrink to about $3.2 million.

Some jurors were angry afterwards that state law would drastically reduce the damages they prescribed. The reduction will occur because jurors found no intentional wrongdoing by the company.

Williams had asked jurors for about $440 million. Company lawyer Kenneth Tekell argued for damages closer to $3 million.

"Our sympathy goes out to the Martinez family for their loss, and we agree that the family deserves to be compensated at a reasonable level," the company said in a statement. "However, we believe this verdict is excessive and in error and, accordingly, we intend to file an appeal."

Martinez and his uncle, Jose Inez Rangel, were working near the K- Resin reactor at Phillips' Houston Chemical Complex on June 23, 1999, when a series of operator errors caused the explosion that killed them and injured four others.

K-Resin is a clear plastic used in drinking cups and other applications.

Solutia Plans to Trim As Many As 800 Jobs Softening Economy, Higher Natural Gas Prices Have Led to Lower Earnings

St. Louis Post-Dispatch

Cynthia Wilson Of The Post-Dispatch Bloomberg News Contributed Information For This Story.
December 19, 2000

St. Louis-based Solutia Inc. said Monday that its fourth-quarter earnings will miss expectations and that the specialty-chemical maker will eliminate as many as 800 jobs as part of a plan to cut costs.

Solutia, which was spun off from Monsanto in 1997, will also reduce its pool of contractors by 400, said Liesl Livingston, Solutia's director of investor relations. The job reductions, which will range from 700 and 800 full-time positions, account for about 7.5 percent of Solutia's workforce.

It's unclear how many jobs will be lost in the St. Louis area. But most of the cuts are expected to occur in Solutia's Integrated Nylon business, Livingston said. That business has operations in Atlanta, Ga., Greenwood, S.C., Pensacola, Fla., Decatur, Ala., and Chocolate Bayou, Texas.

About 20 percent of Solutia's senior management team are included in the job reduction tally, Livingston said. Decisions on where the reductions will take place will be made in the first quarter, she said. Solutia employs about 10,600 workers, including 1,500 locally.

Solutia makes high performance chemical materials for industrial firms and provides research and development services for pharmaceutical companies. It expects to earn about 12 cents a share, before charges of $90 million to $100 million. The company was expected to earn 17 cents a share, the average estimate of nine analysts polled by First Call/Thomson Financial.

The higher cost of natural gas, which Solutia uses as a raw material and as an energy source, along with a slowdown in the U.S. and European economies, has hurt earnings, Livingston said. Solutia had about 50 percent of its natural gas cost hedged in the fourth quarter. But the company was at the mercy of the spot market for the remaining 50 percent, Livingston said.

Solutia said in October that third-quarter profit fell 59 percent from a year earlier. Despite the profit decline, demand for its nylon products was still good, Livingston said. But that suddenly slowed in the last couple of months. She said some customers are resisting recent price increases.

"We did a good job of estimating the inventory corrections that needed to

occur," Livingston said."But we didn't do a good job of estimating the impact of the economy."

Livingston said the job cuts, coupled with savings from a new integrated software system, are expected to save Solutia about $100 million pre-tax annually. About 50 percent of those savings are expected in the coming year, with the full amount realized in fiscal year 2002, Livingston said.

Solutia shares closed unchanged at $11. The shares are down 27 percent this year.

Solvay CEO says co's contribution to polymers deal 'far bigger' than BP's

AFX News Limited

December 19, 2000

BRUSSELS (AFX) - The size of the assets Solvay SA has put into today's asset exchange and joint venture establishment with BP Amoco PLC on their polymers businesses in Europe and the U.S. is far larger than those BP has contributed, Solvay CEO Alois Michielsen said.

Asked what top-up financial payments would be made, he declined to give financial details of the deal - on which the companies signed a memorandum of understanding - saying these will only be revealed in the second half of next year after completion of the deal in June.

"The size of Solvay's contribution is significantly higher than that of BP. This is a megadeal, covering assets with sales of 2.9 bln eur a year," he said in a conference call.

The deal will be "positive" for EPS, he said, adding it allows Solvay to concentrate on core, high added value and highly profitable sectors like engineering polymers, where its sales will double to 700 mln eur as a consequence of the agreement.

The joint ventures with BP in high density polyethylene will make the combined business the second or third largest player in the world, compared with fifth for Solvay and 12th for BP at present, he said.

By transferring its polypropylene business, which has annual sales of 500 mln eur, to BP, Solvay is exiting a highly cyclical sector where major restructuring has produced larger leading players and it is harder to compete, he said.

He said Solvay is leaving the polypropylene sector to further its strategy of developing its leadership positions elsewhere and moving into growing innovative high-yield markets.

Castle Harlan Purchases Leading Maker of Specialty Packaging for Frozen Foods

PR Newswire

December 19, 2000

NEW YORK, Dec 19, 2000 /PRNewswire via COMTEX/ -- Castle Harlan, Inc., the New York merchant bank, announced today that it has acquired a controlling interest in Associated Packaging Enterprises, Inc. (APEI), a leading manufacturer of specialty packaging for frozen foods. Terms of the transaction were not disclosed.

Senior APEI management will retain a significant ownership stake in the company, Castle Harlan said.

APEI is one of the world's largest producers of crystallized polyethylene terephthalate (CPET) containers and is the largest supplier of CPET packaging to the frozen food industry throughout the world. APEI employs proprietary formulas and processes, which combine to create containers that are unparalleled in cost and performance. The company sells more than one billion trays per year.

APEI's primary customers in the frozen food industry include Nestle Frozen Foods, ConAgra Frozen Foods, Celentano and Luigino's, Inc. The packaging can be used in both conventional and microwave ovens and is recyclable.

"APEI has grown rapidly by delivering high quality, proprietary containers at competitive prices," said Marcel Fournier, managing director at Castle Harlan. "The company develops customized solutions to the unique packaging needs of its customers. Its blue-chip customer base and leading market share attest to the value of its products."

"Demographic trends support continued strong growth in the frozen food industry," Fournier said. "In addition, we are confident that APEI's experienced management team will maintain the company's outstanding position in its core business, and we expect to be able to develop important new growth opportunities."

The closely held, private company is based in Jupiter, Florida, and has manufacturing and distribution facilities in Cambridge, Ontario, and Waynesville, North Carolina.

"We are very fortunate to have found a partner with the strengths and the experience of Castle Harlan," said Jon C. Buff, APEI's chief executive officer. "Castle Harlan is well known for the outstanding support it gives to its portfolio companies, and we look forward to a successful and rewarding relationship with the

firm."

The investment in APEI will be made by Castle Harlan Partners III, L.P., a $630 million private equity investment fund organized and managed by Castle Harlan, Inc.

Since its founding in 1987, Castle Harlan has completed acquisitions exceeding $4.5 billion. Its portfolio companies currently include Universal Compression, a leading independent provider of natural gas compression equipment and services, and Marie Callender's Restaurant and Bakery, a chain of family restaurants best known for its freshly baked pies.

Other portfolio companies include Worldwide Flight Services, the leading global provider of ground services to the aviation industry; the Verdugt B.V. group, a leading producer and distributor of organic salts; AdobeAir, one of the nation's leading manufacturers of evaporative coolers and portable electric heaters, and Gravograph Industrie International, the world's leading maker and seller of machines, accessories and materials used in the engraving industry.

Castle Harlan was founded by John K. Castle, an early pioneer of institutionalized private equity investing and the former president and chief executive officer of Donaldson, Lufkin & Jenrette, Inc., and by Leonard M. Harlan, founder and former chairman of the Harlan Company, a diversified real estate and corporate finance advisory firm.

Rohm And Haas Updates Outlook for Fourth Quarter

PR Newswire

December 19, 2000

PHILADELPHIA, Dec 19, 2000 /PRNewswire via COMTEX/ -- Rohm and Haas Company (NYSE: ROH) today said that, after two months of financial performance that were on track with expectations, it is seeing further slowing in end-use markets in both North America and Europe. Lower demand, as well as higher energy costs, will result in a deterioration in December's financial performance. Chairman and CEO Raj L. Gupta noted that the company booked earnings of $.12 per share in both October and November, but now expects December earnings to be in the range of $.05 to $.10 per share, bringing the expected total to $.29 to $.34 per share for the fourth quarter of 2000.

Gupta cited the number of recent warnings from paint and coatings companies, building materials suppliers and home improvement stores as strong evidence of additional slowing in key markets for the company's Performance Polymers Business Group. Some customers also have recently announced plant shut downs and major inventory corrections for the end of the year. Consequently, Performance Polymers' volume growth is likely to be down compared with the same period a year ago. And even though raw materials should remain at current levels, a recent surge in energy costs, most notably natural gas prices, continues to plague profitability as the year comes to a close. In addition, results for some segments of the Chemical Specialties Business Group have been weaker than anticipated.

Continued strong demand for Electronic Materials' technologies, a solid performance by the North American Salt business, and good internal cost control remain bright spots for Rohm and Haas. Gupta said that Electronic Materials has not seen evidence of slowing in its businesses, in spite of concerns voiced by customers about selected market segments. Gupta attributed the ongoing strength of Electronic Materials to that fact that many of its products are targeted to fast-growing technologies such as deep UV photoresists and CMP pads and slurries, while the remainder of its products are used across diverse market segments.

In accordance with SEC guidelines, including the recent Fair Disclosure guidelines, Rohm and Haas will issue final results for its fourth quarter and full-year financial performance on January 29, 2001. Information on how to participate in the fourth quarter earnings teleconference which will be held on January 30, 2001 will be available on the company's website (www.rohmhaas.com) as of January 15th. After December 23rd, Rohm and Haas will observe a "quiet period" which will extend until the January 29th earnings release. During this quiet period, Rohm and Haas representatives will be unable to comment about Rohm and Haas's expected

financial results for the quarter.

This release includes forward-looking statements. Actual results may vary materially, due to changes in raw material and energy costs, foreign currency exchange rates, global economic demand, selling prices, competitive pressures and changes in technology. Additional factors related to future expectations are detailed in the company's filings with the Securities and Exchange Commission, including the Form 10-Q for the third quarter of 2000.

Rohm and Haas technology is found in paints and coatings, adhesives and sealants, household products, personal computers and electronic components, and construction materials. It also helps bring food to the table -- fruits and vegetables -- and salt, an essential ingredient for life. The company has annual sales of approximately $7 billion and employs more than 20,000 people. The company operates approximately 150 manufacturing and research sites in 27 countries around the world.

Royal Dutch/Shell-BASF venture temporarily to shut down German, UK, U.S. lines

AFX News Limited

December 19, 2000

AMSTERDAM (AFX) - Royal Dutch/Shell and BASF AG's 50-50 pct joint venture Basell NV said it plans temporarily to shut down polypropylene production lines due to a "serious supply/demand imbalance in the polypropylene industry".

Two production lines will be shut down in Wesseling, Germany, for 12-18 months, Basell's president for its European polypropylene business Robert Genin said.

The Carrington, UK, line will go into shutdown in January for an undefined period while the one in Texas will be "idled", Basell said.

The total annual capacity of all the lines shut down represents about 5,000 kilotonnes, it added.

"We will now have the time and opportunity to do maintenance and technology upgrades so the line will be a more cost effective unit with enhanced capability when the situation improves," Basell North America president Charles Platz said.

BP, Solvay in polymers agreement in Europe, U.S.

AFX News Limited

December 19, 2000

LONDON (AFX) - BP and Solvay said they signed a memorandum of understanding in a bid to strengthen their polymers business in Europe and the U.S.

In Europe, Solvay will transfer its polypropylene business to BP. The two companies will also combine their European high-density polyethylene (HDPE) businesses into a 50-50 joint venture.

In the U.S., the agreement will lead to Solvay and BP creating a 51-49 joint venture for Solvay's current HDPE business and Solvay transferring its polypropylene business to BP.

In addition, BP will transfer its engineering polymers business to Solvay. The transaction involves businesses with a combined turnover of 2.6 bln usd.

BP said the deal gives BP an equity position in the U.S. HDPE market to support the growth of its olefins business.

BP's polypropylene production will increase to 3.1 mln tonnes per year, while the U.S. and European joint ventures in HDPE will give BP and Solvay about 2.2 million tonnes of annual production.

The proposed transaction will be subject to the final agreement of both parties and to regulatory approval by the relevant authorities, as well as consultation with workers' representatives. Completion is anticipated in mid-2001.

Princedale considering reverse takeovers, offers for company

AFX News Limited

December 19, 2000

LONDON (AFX) - Princedale Group PLC, the display and merchandising and plastics group, said it is considering a range of strategic options, including reverse takeover opportunities or offers for the company.

"These considerations will take a number of weeks and the board will revert to shareholders as appropriate," said Princedale chairman Stephen Bennett.

The group also announced the sale of Sloane Group for 14.8 mln stg in cash to The Marmon Group Ltd, a unit of Marmon Holdings Inc.

Princedale said that following the sale, it will have net cash in excess of 15 mln.

The company said it sold the Sloane Group because the market in which it operates is currently highly fragmented, and, in the next few years, is likely to consolidate into a smaller number of larger operators.

Princedale also announced interim results for the six months to Oct 31, 2000 that showed pretax profit of 1.58 mln stg, compared with 1.62 mln a year earlier.

Turnover was 21.14 mln stg, compared to 21.4 mln a year earlier, while earnings per share were 1.8 pence, compared to 2.11 pence. The lower EPS was due to a 12 pct tax charge this year, compared to no charge in the year-earlier period.

Princedale said its net cash position improved in the first half to 2.15 mln stg, 600,000 stg more than a year earlier. There is no interim dividend.

Bennett said following the disposal of the Sloane Group, the company's trading activities in the short term will be confined to Hallam Plastics.

Hallam posted an operating profit after central costs of 346,000 in the first six months, up 13 pct from a year earlier on turnover of 2.8 mln stg, which was little changed.

"Hallam's trading in the second half has remained ahead of expectations and we expect it to show growth for the full year," said Bennett. "This, together with income derived from funds on deposit after the Sloane Group's disposal, will exceed central costs, thereby preserving the group's net cash position."

Polymer Maker's Layoffs a Reminder of Texas' 1980s Economic Troubles

Knight Ridder/Tribune

Dan Wallach , The Beaumont Enterprise, Texas
December 19, 2000

Dec. 16--PORT NECHES, Texas–Most of the layoffs in the past decade in Southeast Texas occurred in the paper and fiber industries as the petrochemical industry enjoyed relative stability compared to its massive dislocations in the 1980s.

The workforce reductions at Ameripol Synpol Corp. are a reminder of what the region endured less than 20 years ago.

-- The job losses began April 15, 1982, when Dresser Industries Inc.'s Ideco division in Beaumont cut half of its 900-employee roster and had reduced it further to 350 by 1985 when the company closed its doors.

Ideco built drilling rigs. Its layoffs signaled the start of the freefall in the oil sector.

-- Bethlehem Steel in Beaumont and Levingston Shipbuilding in Orange both cut a combined 5,000 jobs in 1983. They had built barges and offshore oil rigs.

Both companies soon after closed for good.

-- Oilfield equipment manufacturer N.L. Shaffer laid off 300 of its 500-person workforce in late 1982. By 1985, Shaffer had closed.

--Texaco Inc.'s Port Arthur refinery idled 2,000 of its employees from 1983 through mid-1984, and further cut its workforce by 1,400 people on Sept. 7, 1984.

Between 1981 and 1985, Southeast Texas lost more than 14,000 jobs in ship repair and oil-related industries, according to a study commissioned by the former John Gray Institute, now called John Gray Center.

From December 1982 through June 1985, 42 area manufacturing plants lost a third of its workforce, the report said. The greatest decline was in 1982 as almost 9,000 jobs disappeared.

In October 1975, Southeast Texas refineries alone employed 14,350 people, according to figures from the Texas Workforce Commission.

By October 1985, that figure shrank to 8,300.

By October 2000, the refinery workforce stood at 4,400.

Part of the reduction is in shifting workers to independent maintenance and construction contractors from direct employment in the plants.

Petrochemical manufacturing remained fairly stable in that period, said Robert Crawley, a workforce commission labor market analyst.

In October 1975, the petrochemical sector employed 10,400. By October 1985, it had contracted to 8,800. This October, the sector employed 7,800.

Ameripol Synpol is reducing its workforce by 214 positions, leaving 271 em-ployed at the plant.

The reductions and the original employment levels for the affected categories are: -- 100 out of 252 for the Paper Allied-Industrial Chemical and Energy Local No. 4-228, the operators' union.

-- 17 of 37 from Pipe Fitters Local No. 195.

-- 22 of 46 machinists.

-- 3 of 5 painters.

-- 11 of 25 electrician-instrumentation.

-- 3 of 5 carpenters.

-- 58 of 115 salaried staff.

Through Thursday, 16 of 78 eligible employees had opted for the plant's offer of an early retirement package. The final accounting of early retirement, and employees have until Dec. 27 to decide, will affect the final layoff numbers.

The Texas Workforce Commission and Ameripol Synpol are providing tran-sition services for the affected workers.

Pay will continue through Jan. 21 and benefits such as medical insurance will continue through April at current rates, said Jerry Penick, the plant's human resources manager.

Ameripol Synpol also will pay accrued vacation and severance to laid-off employees.

Lyondell And Bayer Announce Propylene Oxide/Styrene Monomer Joint Venture in the Netherlands

PR Newswire

December 19, 2000

HOUSTON, Dec 19, 2000 /PRNewswire via COMTEX/ -- Lyondell Chemical Company (NYSE: LYO) and Bayer AG announced today the formation of a manufacturing joint venture for the previously announced, world-scale propylene oxide (PO)/styrene monomer (SM) facility, known as PO-11, now under construction at the Maasvlakte site in Rotterdam, the Netherlands. The agreement has been approved by the Boards of Directors of both companies, and PO-11 is scheduled for start-up in early 2003.

Lyondell and Bayer will each have a 50 percent interest in the joint venture, which will be a partnership under Dutch law. Under the terms of the agreement, Bayer has purchased its interest in PO-11 from Lyondell with a cash payment of 50 percent of the costs incurred by Lyondell for the project to date. Future costs will be shared on an equal basis by both companies.

"We are pleased to have Bayer participating with Lyondell in this state- of-the-art facility, which will benefit from integration with the existing Lyondell operations in the Netherlands," said Dan F. Smith, President and Chief Executive Officer of Lyondell. "By building PO-11 together, Lyondell and Bayer can take advantage of the economies of a world-scale plant and better match each company's growing needs for propylene oxide and styrene monomer."

The world-scale PO-11 plant will have a capacity of 625 million pounds (285,000 metric tons) of PO and 1.4 billion pounds (640,000 metric tons) of styrene. Each partner will independently off-take its 50 percent share of the PO and styrene products from PO-11. Lyondell, with approximately 30 years of operating experience and technology improvements for the PO/SM process, will operate the facility using its proprietary technology.

A large portion of Lyondell's share of the PO output will be used to supply feedstock for Lyondell's new butanediol (BDO) plant being built at the Botlek site and scheduled for start-up in early 2002. With annual capacity of 280 million pounds (127,000 metric tons) of BDO, this new facility will be the lowest cost BDO plant in the world. Lyondell's 50 percent share of the SM output will be used to supply its established European merchant position and to support its global network of customers.

As previously announced, ABB Lummus Global has been awarded the facility's engineering, procurement and construction contract. Letters of intent have been

signed for utilities and key raw materials, and site preparation is under way. The project is expected to create jobs for approximately 1,800 to 2,000 construction employees and 200 permanent operating employees.

Currently, Lyondell operates world-scale PO plants in Europe, at Botlek in Rotterdam and at Fos-sur-Mer in southern France, and in the United States at Channelview and Bayport, Texas (in part for its U.S. PO partnership with Bayer). The Maasvlakte site is located near Lyondell's Botlek facility.

Lyondell Chemical Company, (www.lyondell.com), with headquarters in Houston, Texas, is the world's largest producer of propylene oxide (PO); the world's number two supplier of TDI (toluene diisocyanate); a leading producer of propylene glycol; a leading producer of other PO derivatives such as BDO (butanediol) and PGE (propylene glycol ether); and a producer of styrene monomer and MTBE as co-products of PO production. Through its 41% interest in Equistar Chemicals, LP, Lyondell also is one of the largest producers of ethylene, propylene and polyethylene in North America and a leading producer of polypropylene, ethylene oxide, ethylene glycol, high value-added specialty polymers and polymeric powder. Through its 58.75% interest in LYONDELL-CITGO Refining LP, Lyondell is one of the largest refiners in the United States, processing extra heavy Venezuelan crude oil to produce gasoline, low sulfur diesel and jet fuel. Lyondell is the third largest methanol producer in the U.S., through its 75% interest in Lyondell Methanol Company, L.P.

Honeywell Buy to Get Tough Review

The Cincinnati Post

Compiled from Post news services
December 18, 2000

U.S. Justice Department Officials are expected today to ask for documents and depositions in a formal "second request" for information in General Electric Co.'s $45 billion bid to buy Honeywell International Inc.

The request signals that the deal will face tough antitrust review.

Sources say Justice Department's investigation is focusing on military electronics and engine parts.

The acquisition combines the companies' businesses in aerospace, power generation, plastics and industrial systems. In aerospace, it would create a business with an estimated $20 billion in annual revenue.

content="SAO PAULO, Brazil&#xA;" /></head><body><body.head><distributor>AP
Worldstream</distributor></body.head><body.content><p>Their appliances unplugged
and their
street lamps dimmed, Brazilians on Monday faced their first day of
energy rationing ordered by the government to stave off blackouts.
</p><p>Across the country - from the sprawling metropolis of Sao Paulo
to tiny fishermen's villages in northern Ceara - households and
businesses were calculating how they could cut their electricity
bills by a fifth, as the emergency plan demands.
</p><p>Brazil is suffering its worst energy crunch ever after drought
has left many reservoirs at record low levels, meaning the power
network - almost entirely run off hydroelectric power - cannot keep
pace with demand.
</p><p>Moving to stave off a collapse of the national grid, the
government ordered consumers to lower their consumption or face
hefty surcharges on their electricity bills and power cuts of up to
six days.
</p><p>Industry must cut its bill by between 15 and 25 percent. The
```

rationing is expected to last until at least October.
The cuts have sparked anger among Brazilians, but most say they are cooperating for the public good.
"I don't agree with any of this, but I'm doing it out of solidarity, for social reasons," said Amarilis Saraiva, a 66-year-old homemaker from Sao Paulo, who has already managed to cut consumption in her three-room apartment by the required 20 percent.
She, her husband and her elderly mother now watch television in the dark, run the washing machine only once a week and have unplugged the microwave.
Candlelit dinners might be romantic, and watching television in the dark may be cozy. But waking up early to take a cold showers and walking to the bus stop through darkened streets are neither, she said.
"It's absurd, electricity is a basic, not a luxury," she said. "With this rationing, the people are losing their rights."
Nevertheless, government appeals to Brazilians' sense of civic duty in television and magazine ads seem to have worked.
Eletropaulo, the Sao Paulo distributor, consumers were using 5 percent less electricity Monday than they were a week ago, and average consumption was already 20 percent lower than at the beginning of May, Eletropaulo said.
Critics say the government has failed to invest in alternative energy sources, and that the hydroelectric system is too vulnerable to the whims of nature. Plans to build 49 natural-gas power plants are far behind schedule. Only 15 are expected to come on line next year.
By then, the energy crunch could have bitten hard into Brazil's economic growth rates.
A panel of economists surveyed by respected weekly Veja predict the rationing will cut economic growth from 4.2 percent to 2.3 percent. Unemployment was expected to rise from 6.9 percent to 7.5 percent, Veja said.
Mines and Energy Minister Jose Jorge Vasconcelos said Monday he would not rule out importing extra energy from Brazil's neighbors if the 20 percent savings were not made.

US stocks holding on to modest gains
New York, June 4 (BridgeNews) - U.S. stocks held on to modest gains in
afternoon trade, led by strength in oil and biotech stocks. Oil stocks
rose after Valero Energy (VLO) and Sunoco (SUN) said they expect to exceed
second-quarter estimates. In the biotech sector, IDEC Pharmaceuticals
(IDPH) rose 5% to 68.74 after Morgan Stanley raised its 2001 and 2002
estimates. The Dow industrials were up 57 points at 11049 while the Nasdaq

was up 5 points at 2155.
(Story .1300)
US bonds lifted by Greenspan
New York, June 4 (BridgeNews) - Treasuries posted modest gains, particularly at the long end of the curve, buoyed by Federal Reserve Chairman Alan Greenspan's comment Sunday night that he sees few signs of inflationary pressure. The 30-year bond was up 11/32 to yield 5.681%, while the two-year note was up 3/32, yielding 4.150%.
(Story .312)
Euro makes modest recovery against major currencies
New York, June 4 (BridgeNews) - One day after sinking to a six-month low of 84.31 cents, the euro marked a four-day high of 85.38 cents to the dollar as traders realized profits on their short positions. The dollar followed a similar route against the yen, climbing to a four-day high of 119.86 after bottoming out Friday at a three-month low of 118.30. Faced with a light U.S.
event agenda, trading will be biased toward position squaring.
(Story .901)
European stocks move ahead on strong US start
London, June 4 (BridgeNews) - Europe's major stock market indices moved ahead as investors anticipated a strong start for the Dow Jones Industrials and Nasdaq. Markets in France and the Netherlands were closed for the Pentecost holiday. The FTSE Eurotop 100 Index was up 14.76 points, or 0.45%, at 3307.16.
(Story .1150)
European credit market reaction to Greenspan muted by holidays
London, June 4 (BridgeNews) - Remarks from U.S. Federal Reserve Chairman Alan Greenspan overnight, showing him relaxed about inflation, failed to elicit much of a response from European bond markets. This was mainly a result of market holidays in most European countries. June German government bonds, or Bunds, were down 0.02 on the day to 106.68, while June U.K. government bonds, or Gilts, were last down 0.07 at 113.89.
(Story .337)
OF INTEREST:
Nikkei closes 0.4% higher in quiet trade
Tokyo, June 4 (BridgeNews) - Japanese shares closed slightly higher after trading in a narrow range of less than 100 points all day. Traders said high technology and banking issues remained weak due to earnings concerns while selected defensive stocks such as real estate, oil and coal issues were pushed higher. The Nikkei 225 Stock Average ended 50.51 points, or 0.4% higher at 13,312.35.
(Story .1105)
Japan bond futures end near flat
Tokyo, June 4 (BridgeNews) - Japanese government bond futures bounced off lows, closing near flat. JGB futures were trapped into typically slow, range-bound trades, while cash bonds also saw quiet trading, traders said. The lead June 10-year JGB futures closed at 140.53 yen, up 0.01, while the yield on the benchmark No. 231 June 10-year cash bond stood at 1.240%, down 0.005, as of 1/ 1520 JT.

Jan 5 Polystyrene remains the strongest of the commodity resins. With a limited number of producers, the supply/demand equilibrium has remained fairly stable. Indeed prices are off a bit, but not like PE or PP. Producers are standing behind the December 1, 2000 $.0.02/lb price increase; this may be more viable for GPPS, but HIPS demand seems a bit soft.

With a slowing economy, polystyrene demand may see some further weakness as it is generally considered to be a mature product with demand growth closely related to GNP. Feedstock prices remain high and this has put a squeeze on PS margins, if this continues as forecasted, additional price increases may be on the horizon. Nova announced on November 28th, 2000 that due to industry margins remaining weak and high plant production costs they will be closing their Joliet, IL facility by the end of the 1st quarter, 2001. Overall PS growth is projected to be flat for 2001.

 For spot market pricing visit the Live Prices/Demo Exchange.

<u>New Polystyrene Capacity:</u>

Dow Chemical-in USA-75 million pounds from debottle-necking.
ATOFINA-in Carville, LA-500 million pounds-startup early 2002.

Jan 5 The Polypropylene market moved into the New Year without much excitement. For producers, both the costs of propylene monomer and selling price of polypropylene remain uncomfortably unchanged. While the margins on PP are dismal, at least they did not appear to deteriorate over the past month or so, this may be of little consolation for PP producers.

The supply/demand imbalance for polypropylene is the least attractive of the polyolefins. Most people feel that the imbalance will remain for at least all of 2001. With a slowing economy, and the effect that will have on several significant PP applications, the outlook is not very promising. PP producers are looking for some relief on feedstock costs; natural gas futures prices indicate that they will get some in the spring, but probably not enough.

Many producers had one or more lines down for as much as 3 to 4 weeks in December and a few producers were ?making to order? as to not build any inventory. The December announcement by Basell Polyolefins of the shutdown of 1.1 billion lbs of production, nearly half of which is in the USA is not enough to establish equilibrium in the market.

Because so much capacity was taken out of the market in December and inventory levels have been reduced, there perhaps could be a tightness in supply by the end of the 1st quarter, this may give producers the ability to get some price increase, but they will probably not be sustained.

 For spot market pricing visit the Live Prices/Demo Exchange.

Jan 5 Effective Jan. 1st., all of the North American Polyethylene producers have increased prices by $0.05/lb. While some buyers will notice the change immediately, others have contractual agreements protecting prices for 30 to 60 days after the effective dates. An additional increase of $0.06/lb has been announced to be effective Feb. 1st. Given recent market conditions, buyers are already balking/complaining about this first price increase. Careful buyers, the supply really may get tight.

In effort to help bring a more balanced supply/demand relationship, it is also apparent that most if not all producers have taken steps to reduce production. It may take some time for production cuts to impact the actual market and overall supply. This time factor will vary by supplier and customer depending on inventory levels, market demand, and commitment to keep production curbed. It is too early to accurately define the effects of these changes.

Some things remain as reported in mid December. The economics for the polyethylene producers are still very unattractive. Even with the first price increase in place, a majority of polyethylene sales will be at or below cash cost. Producers are committed to doing whatever is necessary to correct this situation. This includes at least one major producer notifying their customers that they may restrict sales to a level that is equal to the monthly average of the preceding three months purchases.

There is some question if the buying community really believes that the situation with the producers is real and that they are truly committed to making the production and price changes as announced. But it is possible that the market could become very snug, and some buyers may not being able to buy all that they want over the next few months.

 For spot market pricing visit the Live Prices/Demo Exchange.

<u>New Polyethylene Capacity:</u>

Union Carbide-2 plants in Canada-650 million pounds each--starting up now.
Nova Chemicals-in Canada-850 million pounds-startup 1st quarter 2001.
Equistar-in Illinois-expanding HDPE capacity by 70 million pounds-2nd quarter 2001.
Equistar-in Texas-considering expanding LDPE capacity by 240 million pounds.
Solvay Polymers-in Texas-700 million pounds-HDPE-startup 4th quarter 2002.
Elenac 50/50 JV for Shell and BASF-in Germany-550 million pounds-HDPE.
Elenac-in Iran-650 million pounds-LDPE-startup in 2003.
Elenac-in India-450 million pounds-LDPE-startup in 2004.
Elenac-in India-550 million pounds-HDPE-startup in 2004.
Basell-in France-700 million pounds-LDPE.

How Quickly the market changes! Major suppliers shutting down capacity has led to a tightening of the market. Suppliers have re-announced the $.05 price increase for October, the same one that did not hold in April. Dow and Equistar have indicated an additional $.03 increase slated for Nov. 1st.

Higher resins sales prices help out suppliers that have been plagued with high feedstocks and slumping resin prices. With oil prices well off their highs, producers are in much better shape going into the final quarter.

New LLDPE capacity from Union Carbide and Nova may negatively impact prices in the long term. While Nova has delayed start up of their new facility until 2001, Union Carbide is still scheduled to start production later this year. Additionally, substantial new capacity has developed in Europe and the Middle East.

Page 03

Rising oil prices and falling polyethylene have had producers in an uncomfortable situation. But shutting down capacity to force up prices has been effective.

Several producers have reinstated the 5 cent per pound increase that had been tabled since June for and now set effective Oct 1. At least 3 Producers have also announced an additional 3 cents per pound effective Nov 1.

The probability of the success of this increase lies in processor demand. It appears as though inventories at the processor level are fairly lean, so the probability for success for some amount of this increase appears high.

If oil/natural gas remain at these levels, PE producers could be looking at 2-3 cpp increases in Ethylene over the next 60 days. After a tough 3rd quarter, producers can use some relief.

Polyethylene producers have nominated 2 price increases of 3 cents/lb each for planned implementation on 11/1/00 and 12/1/00 respectively. While the market timing may not be quite right for this move (4th Quarter is historically slow for PE demand), continued rising feedstocks (especially natural gas) are forcing costs up 1-2 cent/pound on Ethylene.

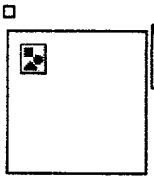

Many producers are now selling large volume accounts at or below cash costs. With no relief in feedstocks appearing in the next 60 days,many producers are either going to raise prices or take some capacity offline.

So far in October, offgrade and some lower end prime pricing has firmed. Many of the so-called deals are disappearing, and there appears to be some discipline in pricing. The rub now will be whether demand stays strong; and the October order books look good. November will be pivotal to the success of the increase; it depends on whether producers will be able to walk away from orders.
